Rogers Discovers 'Nick' Longworth Is 'Favorite Son'

(Special To The News)

CINCINNATI, April 11 — You have heard about Ohio's favorite sons.

Well, I have been all through the state, and if you take it from me the most popular native son they have had there is Nick Longworth.

So what's the matter with Nick for candidate? He is the most able and popular speaker the house has had. In fact, the greatest since Alexander Hamilton.

Everybody talks about what a great campaign Al will make. Well, Nick can stay with him, I don't care how late he campaigns.

COLONEL ROGERS,
Late of Kentucky.

P. S.—Did you read about those great Kentucky basketball players?

PA NEWC OBSERVES

Tomorrow is aviation day in New Castle. The day has been designated as such by Mayor W. H. Gillespie, the occasion being the visit to this city of Clarence Chamberlin, heroic transatlantic flier, who made the hop from New York to Germany last summer. Citizens have been asked to unfurl flags during the day and to give the flier a worthwhile greeting as a city. Arrangements have been made for official greeting and the afternoon and evening's program. Chamberlin will arrive in this city early in the afternoon. Help the program along!

Another announcement has been added to the long list recently presented in this city, showing advancement and progress of New Castle. The Baltimore and Ohio Railroad Company is adding largely to equipment and facilities at the local shops, expending $150,000 at the present time on improvements to provide for a large number of additional locomotives being quartered here, and operated out of New Castle.

New Castle high school senior class this spring has again demonstrated that athletic ability and scholastic ability do go together in many cases. The salutatorian for the graduating class in June is the recent captain of the girls' basketball team. A good athlete and a good student. Last June, the same condition was noted at Westminster college, when the captain of the boys' basketball team was awarded the valedictory in the graduating class.

New Castle physicians, along with those of the county and district, will gather tonight at The Castleton in the annual banquet of the Medical Association. Two physicians, Dr. R. A. Wallace and Dr. D. R. Harris will be particularly honored, for having served fifty years in the practice of their profession here.

This is a little world these days. The two French fliers who came down unexpectedly during a flight across United States, in a field near Sharpsville, a few weeks ago, are now figuring in the news of the day, as flying near Calcutta, India.

Even an airman has difficulties which are like those of his evolutionary parent, the motorist. Yesterday afternoon Pa News was out at the airport on the Harlansburg road, and Ed. Schultz, pilot of the Pride of New Castle, was tuning up his plane. Up and down runways he would go. But twice he got off the ways and dropped into a chuck hole, almost wrecking the machine.

Another method of women's defense against those who molest her on dark nights was told to Pa Newc last night. It seems that the hat pin, once the sword and buckler of the woman, has passed its way since there is nothing on which to pin the hat. So, the nail file has taken its place.

Even today they are getting the main dining room of the Scottish Rite Cathedral ready for the Chamberlin banquet. A record crowd is expected. Boost aviation in New Castle. To do this, the first thing will be to hear the aviator and get his views of what aviation is going to mean to the country at large, and how it will apply to Western Pennsylvania.

Town lot gardening must have been started in some sections of the city. Noted a wagon going by The News office today in which there were several men, a plow, a harrow and other gardening materials and apparatus. It will be but a very short time now until the plowing crews will be exceedingly busy about the city.

Chamberlin To Arrive Shortly Before 2 O'Clock

Plans Are Complete For Greeting To Famous Flier Thursday

EXPECT ESCORT TO ACCOMPANY HIM

Three Gatherings At Cathedral To Be Featured By Chamberlin

Shortly before 2 o'clock Thursday, April 12 (Aviation Day in New Castle), Clarence D. Chamberlin, New York to Germany aviator, will land at the Harlansburg airport, according to Herbert Peairs, manager of the Scottish Rite cathedral and a member of the airport committee of the Chamber of Commerce, who are sponsoring the aviator's appearance in New Castle.

Flying from Warren, O., where he is lecturing today, Chamberlin will be accompanied to New Castle by the planes of R. R. Kegarise and Jack Crowl. Mr. Peairs intends to make the trip to Warren to greet the aviator before he starts for New Castle.

As he is sighted over Lawrence county, the out-of-town ships which will form an air circus to greet him will rise, fly out to meet him and escort him to the Harlansburg airport.

About 30 minutes prior to his arrival, the whistles of the Shenango Pottery, the steel mill and the tin mills will be blown to announce the event to New Castle. Bus service to the airport will be provided. Leaving the diamond at 1:45 the busses will form part of the processional which will bring Chamberlin to New Castle.

To Greet Chamberlin.

The reception committee, headed by O. P. Brown, will meet Chamber-

Two Riders Injured As Motorcycle Hits Willow Grove Bridge

Two persons were injured, one seriously, early last evening, when the motorcycle on which they were riding, in some unknown manner became unmanageable and crashed into the end of the concrete bridge over Hickory creek in the Willow Grove district. The injured young men were found lying unconscious, one on either side of the roadway, by passing motorists and brought to the Seventh ward district, where they were given attention by a physician. One was left at home, while the more seriously injured of the young men was taken to the New Castle hospital, where his condition was today reported as being unchanged. They were enroute toward Beaver Falls when the accident occured.

The Injured

Emerson Goodhart, 19 Kurtz street, In New Castle hospital. Left leg broken, cuts and lacerations on the head. Probably hurt internally. Still in a semi-conscious condition. Condition rather serious.

Claire McAuley, 110 West Madison avenue. At his home. Bruised knee and head. Condition much improved today. Not believed seriously injured.

Little is known of the accident, except as to the point where it occurred and the injuries sustained by the two young men. It is said that Emerson Goodhart, who has ridden a motorcycle for some time and is considered an expert in the operation of this type of vehicle, was considering the purchase of the motorcycle on which he and McAuley were riding when the accident occurred.

He was evidently giving it a tryout and had asked McAuley to accompany him on the back seat, when the accident occurred. They had been gone but a few minutes from the Seventh ward district, when they were brought back in an injured condition.

A passing motorist discovering them lying, one on each side of the road, picked them up, both in an unconscious condition, and rushed them

Traces History Of Oil Leasing Of Teapot Dome

Government Prosecutor Enlighten Jury On Events Preceding

READING RECORDS FROM U. S. FILES

By GEORGE E. DURNO
International News Service Staff Correspondent

WASHINGTON, April 11.—Content for the moment at having traced $269,100 direct from Harry F. Sinclair to former Secretary of Interior Albert B. Falls, Government Prosecutor Owen J. Roberts planned today to enlighten the jury sitting in the oil man's trial for criminal conspiracy with a detailed picture of the events leading up to the leasing of the Teapot Dome naval oil reserve.

The government contends Fall was bribed by Sinclair to make the lease. The former cabinet officer, a co-defendant in the proceedings, is too ill to be in attendance at the trial.

Read Records

For the most part, today's session will be consumed with the reading of innumerable records and letters from the government files, and of depositions taken from men now dead. Roberts hopes to convince the jury that Fall took matters into his own hands in negotiating the lease with Sinclair, veiled everything in the greatest secrecy and literally handed the vastly valuable oil field to the oil magnate "on a silver platter."

First, however, he must wait for Daniel Thew Wright, member of Sinclair's counsel, to complete the cross-examination of M. T. Everhart, Fall's son-in-law, who yesterday broke a five-year silence and admitted Sinclair turned $233,000 in Liberty bonds over to him or Fall a month after the oil lease was consummated.

Everhart insists that bonds were in payment for a third interest in Fall's New Mexico ranch, and the defense is undertaking to establish that

Y. Campaigners Headed For Goal

Expect To Pass Mark Set At Meeting At Y. M. C. A. Tonight

NEARLY 300 TOTAL OF FIRST REPORT

With a total of 290 memberships taken on the first day of the drive, 150 men and boys of the New Castle Y. M. C. A. today are working feverishly, for they must get 210 more by this evening, if the goal of 500 new and renewed Y. M. C. A. memberships is reached, says Robert L. Meermans, general secretary of the New Castle Y. M. C. A. following an enthusiastic report dinner-meeting which took place Tuesday evening in the banquet room of the Y.

Lyon Speaks

Following the dinner, George Lyon made a short speech before the teams made their reports. Mr. Lyon expressed the opinion that he was confident that the drive would go over the top, but that everyone must work doubly hard on the last day of the drive to make victory certain.

"I believe that the work which we are now doing is rendering an invaluable service to the community," stated Mr. Lyon. "And to put this over we, ourselves, must believe in the Y. Truly it is a wonderful institution. It is Christian, it is backed up by the whole of Christianity, and when we are helping it, we must remember that we are helping a Christian organization.

Makes Better Men

"The Y. M. C. A. makes for better boys and men. There is no other institution which does better work for the community than the Y. M. C. A. for it takes care of the boy during his growing years. It develops the youth spiritually, physically and mentally. It gives him training in leadership, an essential quality in later life.

"If one wants really to see what the Y. M. C. A. is doing for the young men and the older men of New Castle, one has only to go to the Y at

Discuss Portersville Ellwood City Road At Gathering Here

Tri-County Good Roads Association Urges Completion Of Improved Road

Speakers Show Importance Of Having New Highway Constructed

Heartily supporting the movement to improve the stretch of road between Portersville and Ellwood City, 32 members of the Tri-County Good Roads association, coming from Beaver, Butler and Lawrence counties, met Tuesday evening in the crystal ballroom of The Castleton.

That the connection between Portersville and Ellwood City would make it possible for farmers to market in Ellwood, and also provide traffic facilities from the Butler road to the west were advanced as among the chief reasons for the improvement.

Offutt Chairman.

J. W. Offutt of Ellwood City acted as chairman of the meeting. He explained that he has been a good road enthusiast for a great many years, and has been successful in a small way in causing improvements. Tonight, he said, Ellwood City felt honored to be represented in such a gathering. As first speaker of the evening he called upon J. R. Humphrey of Portersville to tell about the project.

"The more good roads we have, the better off is the county," commented Mr. Humphrey. "I have been interested in good roads since 1914, and ever since I have been working hard for their construction. As I understand it, a large section of the Perry highway will be let to contract next week, and plans will be made to connect the Ben Franklin highway at Portersville. This will make a straight way from Pittsburgh to Erie.

Connect Cities.

"If we can connect Portersville with Ellwood City, farmers will find it more easy to market their products in Ellwood, for all agriculturists within

Chicago Voters Cause Upheaval In State Ranks

Governor Len Small Is Defeated By Emmerson For Nomination For Another Term

THOMPSON FORCES CONCEDE DEFEAT

Widespread Disorders Reported In Every Section Of City. Negro Attorney Slain

(International News Service)

CHICAGO, April 11. — In what is characterized "the greatest political upheaval in the history of Illinois," the State Republican faction headed by United States Senator Charles S. Deneen has scored a landslide victory over the "America First" forces haded by Governor Len Small, Mayor William Hale Thompson of Chicago, and Robert E. Crowe, State's Attorney of Cook County.

Incomplete returns today from yesterday's bitterly contested primary election indicate Louis L. Emmerson, Secretary of State, has defeated Governor Len Small for the Republican nomination for Governor by a majority of 350,000 to 400,000.

Returns from approximately two-thirds of the State's 6,634 precincts show Emmerson is leading the pres- Governor by more than 250,000 es. Additional returns are ex-

Veteran Doctors To Be Honored

Medical Society Banquet To Be Tribute To Doctors Wallace And Harris

A testimonial dinner in honor of Dr. R. A. Wallace and Dr. D. R. Harris will be given by the Lawrence County Medical Society at The Castleton this evening at which the fiftieth anniversary of service for these veteran doctors will be celebrated.

Dr. Wallace and Dr. Harris started practice in New Castle 50 years ago and have been located here ever since. The special speaker of the occasion this evening will be a speech by Dr. Harold Miller of Pittsburgh, and the society will have as special guests medical men from Sharon, Pittsburgh, Youngstown, Greenville, Mercer, Butler and other neighboring towns and cities.

Dr. F. W. Guy, president of the Lawrence County Medical Society, will be in charge of the program this evening. The committee for the occasion is composed of Dr. F. U. Snyder, Dr. E. Kaplan, Dr. H. E. Zerner and Dr. John Foster.

POWER COMPANY MAKING LARGE EXTENSIONS HERE

Toronto Power Plant To Be Connected To Cedar Street Sub-Station

Quarter Million Dollars Being Expended—Many New Lines Being Built

Mayor William H. Gillespie, members of city council, other city officials and the directors of the New Castle Chamber of Commerce will be guests Friday of the Pennsylvania Power company at a noon luncheon at the Castleton and on an inspection of the facilities of the company in furnishing electric light and power in the New Castle industrial district.

The invitations for the luncheon and inspection trip were issued by District Manager L. B. Round to show the power company's faith in the future progress of this industrial district as evidenced by the many additions to and improvements of the company's facilities made within the last year and planned for steady continuance in the future.

To Tell of Progress

Following the luncheon Mr. Round will call upon other officials of the company for short talks on the improvements that have been made and are projected. These speakers will be Vice President and General Manager C. S. MacCalla, Manager of Light and Power H. N. Wood and Chief Engineer Frank W. Funk.

At the close of this informal discussion of what the company has done and plans to do the entire party will go from the Castleton about 2 o'clock by bus to the Cedar street substation, the power center of the district, and thence through the industrial district

Marines Battle Bands Of Rebels

MANAGUA, Nicaragua, April 11.—United States marines have flung a widespread circle of steel about the jungle district of Neuva Segavia in which Gen. Augustino Sandino and his rebel band are believed to be hiding.

The following report was made today under the activities accompanying this important operation:

Marine patrols during the past ten days had eight encounters at various places with small groups of rebels, all of which were dispersed. A few days ago marine patrols met and attacked a small detachment of rebels, killing two. The marines have suffered no casualties in these operations.

Montreal Section Hit By High Water

Part Of Montreal Under Four Feet Of Water; Death Toll To Date Is Six

(International News Service)

MONTREAL, Que., April 11. — Montreal's east end is under four feet of water today and street car transportation to outlying districts had given way to boats.

The floods were caused by the sudden out-passage of ice from the harbor to pile up a jam at Longue-Pointe. Federal government engineers will be rushed to the scene at the request of city authorities. Efforts will be made to dynamite the ice blockade.

Flood damages caused by swollen rivers throughout Quebec Province will run into millions of dollars, authorities declared. The toll in lives to date is six.

Illinois Election Victory For Drys, Declares McBride

(International News Service)

WASHINGTON, April 11.—The primary election in Illinois was a victory for the drys, it was claimed in an Anti-Saloon League statement issued here today by F. Scott McBride, the league's general superintendent.

"The Illinois primary," McBride said, "has resulted in a victory for the drys both as to congress and the state legislature. The election returns definitely indicate that at least two-thirds of those nominated by the majority parties in the different districts are dry. These will beyond question be elected on election day."

Illinois will have at least 18 dry members in the next congress, McBride predicted.

News' Man Scouts City From Air; Sees Need Of Some Air Sign Posts

(By BART RICHARDS)
(of News Staff)

Occasionally Will Rogers sprinkles a handful of real horse sense among his pungent paragraphs and his remarks of Tuesday which were printed in The News contained some of that horse sense.

Will suggests that every town should have the roofs of the buildings painted with the name of the city as a guide to aviators. He also suggested that the civic clubs of the cities could well afford to take this matter up.

Just to see what advantage these roof signs would be to a flier I made a trip on Tuesday afternoon over the city with Lieutenant Herbert C. Sherman of the Kegarise company and found that aerially I was in a strange city.

Couldn't Tell by Appearance.

The trip itself was a pleasure but looking over the side of the plane revealed just an industrial city. A criss cross of streets with here and there a spire or steeple a thread of a creek winding in and out, some concrete roads leading out of the city and down in one corner a large group of industries pouring out smoke.

But the name "New Castle" was scarce as viewed from the air. The city below might have been in New York, Ohio or Indiana. It might have been most any industrial city insofar as markings were concerned. And yet funds spent in white paint would mark 'New Castle" so that aviators would know just where they were.

As a pleasure trip, the ride aloft Tuesday afternoon was an unusual one. One can not appreciate his own city until he views it from the air. At 2,500 feet altitude New Castle is a picture. A peaceful picture that includes in its elements substantial homes, good streets, industries that are flourishing, and a well groomed appearance that will react favorably upon visitors who fly over it.

No Novelty Now.

Flying is now past the novelty period. One doesn't go aloft these days with the same intrepidity he did ten years ago for flying now is safe. Just a matter of stepping into the cockpit, adjusting the helmet and saying to the pilot "give 'er the gun." A roar of a motor a swoosh of air and a race down a sodded field for a hundred yards and then a graceful swooping upwards.

Nose up, into the wind and the plane rises as easily as some giant bird. No sensation of fear, just a pleasant feeling of release from traffic problems and wild drivers. Up, up, 1,000 feet, then 2,000 feet and still higher. A bank to the left and the plane is headed down the Wilmington road towards the city.

Apparently the plane is hardly moving yet the speedometer shows 110 miles an hour. The answer is that speed can be guessed only at when there are objects being passed and up in the air there is nothing to pass. And its too far down to even guess how fast you are passing.

Air is Bumpy.

The air was a little bumpy Tuesday afternoon. Occasionally the ship would drop as it hit an air pocket or would shimmy a little as cross currents hit it.

But one is impressed with the safety of the ship. Confidence in the man at the stick and confidence in his word that the motor is in good shape does this perhaps, but one thinks little of accident.

New Castle is just entering the air period. At the present time there are two fields here and two first class, experienced pilots, Lieutenant Sherman and Lieutenant Scholtz. There are other men qualified of course such as Kegarise and men who served as fliers during the war. But the two first pilots mentioned are here for the purpose of flying and if you haven't experienced it yet do so.

And to reiterate New Castle needs some roof signs. The various schools such as Franklin or Senior High offer possibilities, the Scottish Rite Cathedral, The Castleton, the old car works, the tin plants, and a number of others.

Remus Fails To Get His Liberty

Supreme Court Rejects Appeal For Bond, Pending Outcome Of Case

(International News Service)

COLUMBUS, O., April 11.—Hopes of George Remus, Cincinnati wife-slayer, of obtaining his release on bail from the Lima state hospital for the criminal insane, were dashed today when the Ohio supreme court rejected his appeal, asking that a bond be fixed pending final disposition of the case.

Remus has already been ordered released by the Allen county appellate court. The state, however, filed an appeal from this decision which is now being considered by the supreme court. Attorneys for Remus asked that he be permitted bail pending the outcome, but the supreme court today rejected his plea.

The supreme court also refused to annul the recent action of Chief Justice C. T. Marshall, who issued an indefinite stay of execution preventing the Allen county appellate court, which declared Remus sane, from liberating him before the state's appeal has been heard by the supreme court.

It can't be done the people cried, when Orrville Wright said he would fly, it can't be done they loudly yelled when Langley said he'd plumb the sky, it can't be done they laughed and said, when radio was first brought out, and when they talked of motor cars, the doubting fans let out a shout. It's been the same with everything that seemed impossible to do, folks said it never would be done, and yet before they could get through their jibes and jeers and nasty cracks, some lad stepped out and said its done, and then improved his little job, the critics said, its all in fun. Most things are possible to do, though folks will say, it never will, the lad who wins, gives them no heed, he plugs and plugs along until, the job is done and he has won and shows the folks a brand new way, of doing something never done, the weather's thirty-five today.

See Final Vote On Farm Relief

Political Row Threatens—Charges Made Over Dawes' Friend

(International News Service)

WASHINGTON, April 11. — Although a political row threatened to stir up a lively debate in the senate, farm bloc leaders were hopeful today of securing a final vote on the McNary-Haugen farm relief bill within forty-eight hours.

The political row was projected by Senator Brookhart (R) of Iowa, who charged George N. Peek, close friend of Vice President Dawes, was "insincere" in supporting the bill. Peek has been credited generally with initiating the equalization fee feature of the farm bill, which caused President Coolidge to veto the bill a year ago.

Brookhart said Peek was Dawes' campaign manager for the 1928 nomination and didn't "wan't a bill which the President would sign." There were indications the Brookhart charges would be answered by friends of Dawes. Farm bloc leaders feared this might project a general debate on the agricultural sympathies of all presidential candidates, as Peek has been an outstanding foe of Herbert Hoover.

Voting on amendments was expected this afternoon, with a possibility that the final vote will be reached late tomorrow.

Small Girl Struck By An Automobile

H. C. Woods of 313 Northview avenue, reported Tuesday that he was driving east on Court street at the intersection of Milton street, when a small girl, Loraine Galbreath, of Court street, ran across the street and was struck by the running board of the Woods machine. She was knocked down but got up herself. She was taken to the office of a physician by Mr. Wood where on examination it was found that she had not been seriously injured. She was then taken home by Mr. Woods.

CHAMBERLIN TO ARRIVE SHORTLY BEFORE 2 O'CLOCK

lin at the field and escort him to the Scottish Rite cathedral. A parade will be formed, headed by two motorcycle police. At the cathedral the aviator will be formally received by Mayor William H. Gillespie, who, in the name of New Castle, will present a large tin key to the city to the aviator, which will open all doors. This is to remind him that he is in New Castle, the world's largest tin center. The key, through the courtesy of David S. Pyle, president of the Chamber of Commerce and general manager of the Shenango works of the American Sheet & Tin Plate company, was cast in the local tin mills.

After he is greeted on the steps of the cathedral, Chamberlin will address a group of school children in the auditorium at 3:30. Adults will also be admitted. For children, the admission to this matinee is ten cents. Fifty cents will be charged all adults.

Guest of Honor.

The next appearance of Chamberlin will come at 6:30 Thursday evening, when he will be guest of honor at a community banquet which is being sponsored by the airport committee of the New Castle Chamber of Commerce. After the banquet he will lecture again at 8:30 in the cathedral auditorium. Admission to the banquet, which also includes admission to the evening lecture, has been set at $2.50. For the lecture alone, prices of 50 and 75 cents will prevail.

Surrounding cities are cooperating in the coming of Chamberlin, says Mr Peairs. It is expected that at least ten members of the Pittsburgh Aero club, of the Youngstown Air club and airplane owners from Cleveland, O., will come to New Castle for the event.

"If there is anything that the visit of Chamberlin should do," continues Mr. Peairs, "it should stimulate the citizens of New Castle to form an aero club. At Altoona, Pa., such an organization has been in existence for the past ten years. During that time they have purchased ten ships, erected three hangars at the Tipton airport, and 13 members have qualified for pilots' licenses. There is no reason that New Castle should lag behind other progressive cities of the state and nation. Here we have men with vision, and men with the understanding of the needs of the city. We must progress. We cannot stand still. And we will progress in the air."

An examination there, indicated that the condition of Goodhart was of a serious character and he was sent to the New Castle hospital.

Here it was found that his left leg had been broken, that he had sustained serious lacerations on the head, and probable internal injuries.

Shortly after the accident occurred, the city police station was notified that there had been a serious accident and one man was in the hospital.

Officers Samuels and Richards answered the call to the hospital, where they secured all possible data concerning the accident.

DISCUSS PORTERSVILLE ELLWOOD CITY ROAD AT GATHERING HERE

(Continued From Page One)

a radius of ten miles depend more or less on the Ellwood market. Cattle are grown and butchered; they find their market in Ellwood City.

"This piece of road is the only part of the state system within the county which is not improved or let for improvement. It is seven and one-quarter miles long, one and one-eighth of which are in Butler county, so that you can see that the greater portion is in Lawrence county.

"To improve this road would make a change in the Beaver valley and in Ellwood City proper. It would make a useful cut-off between the east nad the west. It will bring everyone closer together. And it is important to the people of Perry township for the township wants the road improved, and they should have it. Butler county is willing to do more than their share. I recommend that something should be done. And an 18-foot highway would be the best."

The Hon. George T. Weingartner was the next speaker, and he gave a short history of the road work in Lawrence county since the time of the Sproul bill.

Butler Man Speaks.

James E. Marshall of Butler, an attorney, next gave the view of Butler county about the matter. The proposed improvement, he stated, would serve to alleviate the conditions now existing in Butler county. The improvement would mean a great deal to Butler county, Mr. Marshall stated. He also declared that Butler county was 100 per cent back of the project.

Charles Ritts, chairman of the Butler Good Roads committee, also spoke and told how much the road would mean to his county.

Those present at the meeting were:
J. W. Offutt, Ellwood City.
C. H. Blank, Ellwood City.
J. W. Hutchison, Butler.

Miss Hamilton is suffering from acute anemia contracted while on a visit to Europe.

CHICAGO VOTERS CAUSE UPHEAVAL IN STATE RANKS

(Continued From Page One)

pected to swell this total at least 100,000.

Emmerson Leads Way

With Emmerson setting the pace, practically every important Deneen candidate in the state, and in the hotly contested county of Cook (Chicago), were swept to victory on the crest of his record landslide.

Otis F. Glenn, the Deneen entry for the nomination of United States Senator, won over Frank L. Smith, the rejected former Senator-elect, by an estimated majority of 150,000.

Governor Len Small and Mayor William Hale Thompson have conceded defeat of their ticket.

In the bitter Cook county contest between State's Attorney Robert E. Crowe and Judge John A. Swanson for the nomination of State's Attorney, the Deneen tidal wave carried Swanson to victory by an estimated majority of 125,000.

Emmerson carried to victory his running mates for lieutenant governor and secretary of state. Fred E. Sterling, incumbent, won the former berth and William J. Stratton, the latter.

Oscar E. Carlstrom, Attorney General, who sought renomination for the office under the Deneen banner, was successful over State Senator John Dailey of the "America First" combine.

Ruth H. McCormick and Henry R. Rathbone won the nominations for congressmen-at-large.

Widespread Disorder

Even before the count of the ballots was complete, machinery was set in motion to prosecute those responsible for the widespread disorders that marked yesterday's frenzied primary election.

The campaign reign of terror that made the primary the most bitterly contested in the history of Chicago reached a climax at the polls. Bloodshed and rioting were more or less general throughout the city.

The crowning act of violence was the assassination of Attorney Octavius C. Granady, negro candidate for committeeman from the twentieth ward under the Deneen banner.

Granady was the second Deneen ward candidate to be shot to death by gangsters, "Diamond Joe" Esposito having been slain several weeks ago.

Granady was cruising the district in his automobile when four gangsters rode up behind him in another car and filled his body with slugs from sawed-off shotguns. The slayers escaped.

Raleigh H. Taylor, personal bailiff to Judge Rush, was sent to the hospital after four men slugged him into insensibility in front of a polling place. Numerous such sluggings and disorders occured through the city and county.

Kidnapings were frequent and scores of attempts to intimidate voters were reported. Several attempts to steal ballot boxes or stuff them with fraudulent votes were frustrated by guards.

Darlington Man Admits Sending Letter Threat

(International News Service)

BEAVER, Pa., April 11.—"I wanted to buy an automobile," George Davis, 22, Darlington township, self styled "masked man and bandit leader of 500 men," told officers when arrested on a blackmail charge. Davis is in jail today waiting hearing of his case.

County detectives say Davis admitted writing a letter demanding $6,000 from J. B. White, manager of the White Clay Mine company, near Darlington.

PULASKI TOWNSHIP DEFENDANT IN SUIT FOR CONDEMNED LAND

The case of H. W. Michael against the township of Pulaski was taken up for trial before Judge Chambers in county court this morning. The case grows out of a dispute over the value of some land in Pulaski township taken by the township.

After the jury had been sworn it was taken to view the land in dispute.

There is a lot of Americanism in districts where they don't think a sandwich a square meal.

Cheesman of the United Presbyterian church officiating.

Mr. Gardner is survived by his widow and one daughter, Mrs. G. A. Stiner of Salt Lake City. He was a brother of the late James A. Gardner of this city.

Y.M.C.A. Opens Gym For Ball Players

Exercises Given To Enthusiasts Tuesday And Thursday Evenings At Y

Tuesday and Thursday evenings that gymnasium of the Y. M. C. A. is more crowded than usual, for those are the days on which base ball enthusiasts of New Castle gather to loosen up what may become charlie horses, according to Walter E. Kirker, physical director of the Y.

There is still room for more base ball players in these classes, says Mr. Kirker, and he urges all those who are interested to see him at once.

William Riley Is Not Improving

William Riley, assistant city electrician, who was injured internally Monday, when a curb light post fell on him, was today reported by the New Castle hospital authorities as remaining in about the same serious condition. There has been no improvement in his condition in the last twenty four hours.

Cross Suits Over Auto Damage Case; Defendants Both Win

Novel ending of cross suits for damages in an automobile accident came at court today when verdicts in each case were rendered for defendants.

The first case tried was that of William C. Cullen and Earl Yeager against J. D. Patterson, for damages to plaintiff's automobile in a collision on the New Castle-New Wilmington road. The jury in this case rendered a verdict for the defendant.

In the next case taken up J. D. Patterson was plaintiff in a suit for damages against William C. Cullen and Earl Yeager, the suit growing out of the same accident. Verdict for defendant was also rendered in this case.

This leaves each party to pay their own damages. The cases were tried before Judge Chambers.

POLITICAL ADVERTISEMENT

POLITICAL PROMISES

Just wanting to be elected to a public office is not sufficient qualification. The people electing a person have a right to know his fitness for the office, what he intends to do if elected, and his attitude on the various questions.

Two years ago I said that I was against the present Inheritance Tax law, and that if elected I would present a bill which would relieve this condition at least in part. That bill was presented and passed but was vetoed by the governor on the grounds that it took too much revenue from the treasury.

Pennsylvania now has a large surplus in the treasury and I believe we do not need to tax widows and orphans in the manner we do. If I am re-elected I expect to resume the fight for this legislation and have the assurance of former governor Martin G. Brumbaugh that he will lend assistance in the fight. I believe further, that we are paying too much for the collection of taxes and voted for a lowering of costs. This bill was opposed by the Tax Collectors League.

The only way in which these things can be remedied is by fighting for them until they are accomplished. With your help I can go back prepared by experience and training to aid materially in it.

Bart Richards

MISS HELEN COTTON WEDS HERMAN PATTON

Tuesday evening at 6 o'clock the home of Mr. and Mrs. C. M. Cotton, West Washington street, presented a charming scene when their daughter Helen Mae, was united in marriage to Rev. Herman M. Patton, son of Mr. and Mrs. Claude M. Patton of English avenue.

Miss Victoria Finney sang "O Promise Me" preceding the ceremony, and the wedding party descended to the strains of Mendelssohn's wedding march. The ceremony was solemnized before an improvised alter of palms and white lilies, with Dr. C. H. Holcomb, pastor of the First Christian church, officiating.

The bride wore a gown of white crepe, and her white tulle veil was caught with a coronet. She carried a shower boquet of brides roses and lilies of the valley.

Miss Esther Fisher, as bridesmaid, wore a gown of peach georgette and carried sunburst roses. Little Janice Book as flower girl, carried a basket of white roses. Harold Phelps served as best man.

A wedding dinner followed the ceremony, and covers were laid for 40 guests.

Out of town guests were Mr. and Mrs. Eli Higgins, the Misses Effie Stickley, Emma Cook, Marien Latimer and Emilie Dooley.

Rev. and Mrs. Patton left later for Mannington, West Va., where Rev. Patton is pastor of the First Christian church.

F. O. Luncheon Club.

Mrs. Fannie Weingartner of the Butler road entertained at a tureen luncheon Tuesday for members of the F. O. Luncheon club.

Music and 500 were pastimes of the afternoon and prizes were won by Mrs. Minnie Fullerton, Mrs. Tirzah Wyrnn and Mrs. Lillian Rodgers.

Special guests were Mrs. Mary Clark and Mrs. Anna Weingartner.

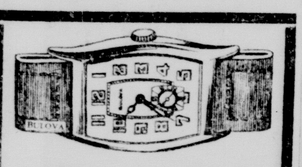

May 8 Mrs. Sara McCreary, Park avenue, will be hostess.

To Entertain Club

Mrs. Roy Preston, Hillcrest avenue, will entertain her club members at luncheon Thursday in The Castleton.

Members of the Ladies Union Label League, met in the Trades Assembly Hall, for a social meeting Tuesday evening to honor the new members. The hours were spent pleasantly with euchre and bingo.

Later refreshments were served by the committee, composed of Mrs. William McIlwain, Mrs. Fahey, and Mrs. Eleanor Skindard.

St. Mary's V. C.

Members of St. Mary's V. C. will meet this evening at 8 o'clock in the church basement.

W. I. T. Y. Club.

Mrs. Cecil Logan received the W. I. T. Y. club members as guests in her home on Brooklyn avenue Tuesday evening. Radio music and kensington were pastimes of the evening, and the prize was won by Mrs. Foster McEwen.

Later the hostess served refreshments, assisted by Mrs. W. D. Brown.

Plans were made for a tureen dinner in two weeks in the home of Mrs. Harry Shaffer, Chestnut street, with the husbands as special guests.

A Bourborn prince is to marry Peggy Watson of the U. S. A., even if she is from Maryland instead of Kentucky. Perhaps that is one effect of prohibition.

Don't Let That Cold Turn Into "Flu"

That cold may turn into "Flu," Grippe or, even worse, Pneumonia, unless you take care of it at once.

Rub Musterole on the congested parts and see how quickly it brings relief.

As effective as the messy old mustard plaster; does the work without blister.

Musterole, made from pure oil of mustard, camphor, menthol and other simple ingredients, is a counter-irritant which stimulates circulation and helps break up the cold.

You will feel a warm tingle as it enters the pores, then a cooling sensation that brings welcome relief.

"HIT 'ER OUT BABE!"

KING BASEBALL regains his throne today to reign for another eight months in renewed splendor. Of all monarchs he alone as the years roll by loses none of his traditional public favor. For Americans the year comprises five seasons—baseball, spring, summer, fall and winter—but the greatest of these is the season of baseball. What other season of the year is looked forward to with as much expectation and yearning as that of the Great American Game?

Not all of the one-hundred-and-fifteen millions of men, women and children in the United States are all-year-round or all-season-round baseball enthusiasts, but is there one who does not realize the triumphant coming of the three great days of the baseball calendar, which are the opening day of the season and the days of the first and last days of the world series? Spring and fall mean little to the baseball fan except that they herald the coming of the first game of the season and of the world series, respectively.

There have been some, albeit few, who have depreciated the greatest sport of the Americans. Have they not overlooked the advantages it provides for millions of humans to get out-of-doors for a part of at least one hot afternoon a week, to thrust themselves into an all-diverting amusement, to get together as a great community and with one thought? Have the opponents of baseball overlooked the verity that loyalty and patriotism are general, that loyalty to the home team is made of the same cloth as loyalty to one's town and country.

It is as natural for peoples to have their national pastime as to have their religions, political beliefs, and other national characteristics. Baseball is a distinctive characteristic of the American people.

THE PROSPEROUS FORTIES

A RECENT compilation reveals that fact that the average man is at the peak of his prosperity at or around the age of 40. Pick out all the prosperous men you know of in the public eye and you will realize the truth of this fact.

After a man has passed forty years of age, the report shows, the time and the likelihood of his amassing a fortune or even a livelihood, decreases rapidly.

A survey of the lives of "100 average men" showed that at 45 more than half of them were self-supporting or better. Only 15 were dependent. At 55 the number of dependents had doubled and at 65 it was still increasing.

This may be taken either as a threat or a warning. It may be the source of despondency or of keen incentive, accordingly as it is viewed with courage or taken as an ultimatum proclaiming the uselessness of effort.

For the average man the solution lies in the slow accumulation and careful investment of savings. The same statistics note that the earlier saving is begun, the greater the ratio of accumulation and the longer prosperity will endure. They are facts for the generation now coming into middle life to consider, and to be taught to the younger generation for its own happiness and security.

UNBALANCED SAVINGS

"SUPPOSE," says a real estate salesman, "the people of this community would start in now to save their money for the sake of saving alone; suppose they would acquire the habit of stinting themselves in necessities, luxuries, comforts of home and community, and all just to save money. What would be the result in a very short time?

"The fact that they saved their money would stop consumption, which would automatically stop production, because you cannot keep up production when no one is consuming the products. When you stop production you are stopping labor, and when you stop labor you stop wages. No wages—nothing to save—the end is calamity."

This is merely another statement of the fact that saving should not be one's sole financial activity. Saving alone becomes miserliness. Saving should be part of a comprehensive program which includes sensible spending, wise investing and normal saving. Such a program, widely followed, would keep industry, business, the arts and professions moving prosperously, would provide for the future, and keep available a small accumulation of savings for emergency. Such a program is what is meant by thrift.

FUEL

Fire was one of the major discoveries of early man. He has been cooking food, developing power, and warming himself ever since. Geologists now tell us that a million or more years from now the earth will be much as it is now and still going around the slightly cooled sun. Coal, oil, and other deposits in the earth will have been used up by that time. It need not worry us at all. Already the use of coal is decreasing, although there is still plenty in the earth for generations to come. Other fuel takes its place. When oil and gas are gone something else will have been invented so that ingenious man can go on cooking his food, developing power and warming himself.

PARTY POLITICS

One of the reasons for the indifference which characterizes so many citizens in regard to politics and public affairs is a pretty general ignorance about the history of the political parties of America and an understanding of the motives and actions of the outstanding leaders of those parties. A knowledge of the circumstances which led to the nomination of Lincoln by the Republicans, in 1860, or an understanding of the circumstances which led to Blaine's defeat and Cleveland's defeat, in 1844, would prove interesting and stimulating—to the degree that some of the present day indifference toward public affairs might be overcome.

THE GIANT RADIO

Almost all of us are more or less interested in radio—if only to knock the jazzy programs. How many of us realize that a new industrial giant has stalked among us and has taken its place. A few years ago we were amazed at the figures of the motion picture industry. We were astonished to learn that it ranked far up in class of the steel and motors. Now Bond Geddes, official of the Radio Manufacturers' association, tells us that last year radio products worth $600,000,000 were produced in this country. It is estimated that 90,000,000 people are

By and by it may not be necessary to go home at all.

COURT REVERSED ITSELF

In a southern court a lawyer with whom the judge had slept the previous night in a crowded hotel became insulting in his conduct of a case, and was cautioned by the judge to desist or be fined for contempt of court. Soon the lawyer cut loose again and the judge fined him $20. Before proceeding with the case the lawyer approached the judge and whispered to him for several minutes. The court made no answer, but, turning to the clerk, said: "Mr. Clerk, you will please remit that fine against counsel; he is up here trying to borrow the money from me, and I guess the government can better afford to lose $20 than I can."

A favorite pastime for some ladies in different parts of this country in recent months is to shoot their husbands, place the smoking cannon in their hands and run screaming to the neighbors, yelling murder, fire and many other things. And some are getting away with it.

The same town which thought it had arrived when it got its streets lighted up like a Christmas tree is now raising money for traffic signals.

It is said that begging is not only a business in Russia, but is a very profitable one. It also is in this country if gone at in the right way. One has to know how to do it, just like any other business.

Every time President Coolidge goes to church the police have to form a line to hold the curious back. We know some birds right here in New Castle who would also cause some excitement if it were known they were going to church. The ones who go to see President Coolidge are glad to see him, of course.

TODAY'S STORYETTE

An elderly lady of wealth owned a parrot which she left in the care of some relatives while she was on an extended visit. The relatives, it seemed, were hoping to share the old lady's property when she passed away, and frequently in the hearing of the parrot expressed themselves by saying: "I wish the old woman would die".

The parrot heard this repeated so often that it remembered the saying. When the owner returned from her trip the parrot was returned to her. Much to her worry, very often she would hear the bird say, "I wish the old woman would die."

Natrally it worried and puzzled her until she consulted her minister about the occurrences. The reverend gentleman also owned a parrot and he thought that if the two birds were placed in the same cage the good influence of his bird might break the old ladys' pet of the bad habit it had acquired.

So the minister had his parrot taken to the home of the old lady and they were placed together. It was only a few moments after this had been done that the woman's parrot, feeling in a convivial mood, piped up: "I wish the old lady would die," whereupon the preacher's bird responded in a low, solemn voice, "May the Lord grant it."

On Easter Sunday three hundred thousand people loafed around in the sunshine. The "ankle corsage" was a new one. Girls wore small bunches of violets fastened to the left ankle with wide bands of purple ribbon tied in a tiny bow. Oh, wham de doodle, de doodle, wham!

PURELY IMAGINARY

Connecticut has a "truthful James". He telegraphs eastern papers that up near Foster lives a man who owns a dozen hens which will not eat until the dinner horn blows, and that Mrs. Winther of Mountain View Farm has a horse which has to have its plug of tobacco every day. Foolish stories both of them. The horse is one of the finickiest animals about his eating. Give him something that isn't entirely wholesome and good to eat and see what he does with it.

NEEDLESSLY ALARMED

Phyllis Bottome, English author, decides that the chief business of American girls is to catch the men. This alarms Phyllis, but needn't. American girls have no monopoly at "catching men." And it's what nature intended them to do. It's futile to revolt at biology. Whether girls catch the men or men catch the girls has never been satisfactorily decided. Usually it's 50-50.

Missionaries Among Us.
Water and Air Waves.
A Mania for Excess.
Fearfully Made.

By ARTHUR G. BRISBANE (Copyright, 1928, by N. Y. American, Inc.)

Last Sunday Hindu gentlemen distributed at the entrance of Mr. Rockefeller's and other New York churches handbills saying "Christianity has outlived its usefulness," asking the public to embrace Hinduism.

That seems to us outrageous. But we finance devoted missionaries that do the same thing in foreign countries. The mote in our brother's eye is always visible.

Old British builders of wooden ships who said ships made of steel would sink in heavy storms would be interested in the Leviathan's latest trip.

She reached New York yesterday with her forecastle deck smashed, deck structures badly twisted by a wave said to be 150 feet high, that dropped 1,000,000 pounds of water on her deck at once.

Men build ships that the ocean cannot sink. Water waves are heavier than air waves. Airships will soon be built that no air wave will worry.

St. Paul reports a mania of endurance contests among children. Two boys kept one kite flying 48 hours. Sylvia Moskowitz bounced a golf ball 2,710 times without stopping. Another girl skipped the rope 535 times. A boy beat her by 50 skips.

A going-without-stop contest started the thing. This type of excess explains the fact that heart disease threatens to hold the death championship in the United States.

The case of Miss Irene Hamilton, 27, about to undergo her nineteenth blood transfusion to combat pernicious anemia, should make the average human being grateful for his body "fearfully and wonderfully made."

While we work and while we sleep, blood is manufactured, with red corpuscles to do the building and white corpuscles to fight disease. That blood is transformed by the gallon into other fluids of the body and retransformed into blood over and over. In each of us a marvelous chemical and physical laboratory is doing work of which we know nothing.

Chicago criminals admit planning a kidnaping campaign expected to yield $1,000,000. If the friends of the kidnaped failed to pay, the kidnaped would never return.

The penalty for that crime is death, but that made no difference with $1,000,000 in sight.

That kidnaping is unpleasant but not as bad as in old days of the "Jacquarie" in France, when there were 70 local famines in one year, and peasants, tired of eating the bark of trees, kidnaped and ate each others' children, or seized travelers and ate them. In one hiding place were found 45 skulls of travelers thus devoured. There is SOME improvement.

Fresh from pleasant pastimes and musings of Easter, the bulls returned to Wall street yesterday more bullish than ever. Prices went up all along the line, more than 4,000,000 shares were sold. New York banks called 35,000,000 in loans, but that bothered nobody. It is hard to discourage a determined bull.

Smallpox is raging in Mexico, 650 deaths within a few days in the state of Jalisco.

Investigation will show that inhabitants of that region do not "believe in vaccination." They call it scientific folly or have superstitious fear of it.

In China because of famine, caused by poor crops and constant war, girls 10 years old are offered for sale at $10, Mexican money. Those younger sell for 5 Mexican dollars, and business is bad, even at those prices. In the provinces of Shantung and Chihli, alone, 4,000,000 persons are destitute and half starved. In China, as elsewhere, war doesn't pay.

Howard Bishop, middle aged married man, interrupted his "calling off" at a country dance. When he returned shortly to resume the calling off, he remarked: "I have killed Merritt Manning, and I am damn glad of it."

Mr. Manning was with Mr. Bishop's wife at the time of the killing and everybody who believes that a jury will convict Bishop of murder in the first degree knows little about human nature.

Mr. Rolvaag who wrote "Giants of the Earth," fresh from Norway, says this "is a country of tremendous extremes and tremendous excesses."

The gentleman should remember that he who doesn't go too far never goes far enough."

In Seattle a tiny Pomeranian barked too much. Its owner wanted the vocal chords removed, reducing the bark to a gesture, but humane societies said "no."

Dog Trainer Sanderlin removed the bark in two weeks by training. "obedience is the secret," says he. "I taught Darkie (the Pomeranian) the meaning of the words 'shut up'."

That trainer might make a fortune in politics.

Dr. Crane's Editorial

A NEW COLUMBUS

The reader may often have wished that he might have lived in that year 1492, when Columbus crossed the watery wastes and discovered a new continent.

But to live in the year of our Lord 1928 and to pick up the morning paper and see that young Lindbergh had completed a trip of 9,000 miles throughout the South American republics and back to St. Louis, or that he has successfully crossed the Atlantic Ocean and landed in Paris is really to live in the age of a new Columbus.

He has done what has never been done before. His stock in trade was merely a skilled hand and a clear brain. There was no great capital behind him, no organization that prompted him. He just did it himself.

And as far as I have been able to see, I have found no line in any paper anywhere criticizing or condemning him. With one voice the people of all countries have united in exalting Lindbergh. And with all he has carried off his victory so modestly and so humanly as to raise no resentment. For after all there is only one thing we resent in a man, be he great or small, and that is undue egotism.

He is easily the most outstanding figure in this twentieth century. If I could make my way through the great crowd and shake hands with him I would be glad to add my little tribute to his success.

He is the type whom the world is anxious to honor today. He is a doer and not a talker. But when he talks his language is in the simple terms of a doer and hence its eloquence.

Nobody voted for him and he was not elected to anything, but he ranks along with Abraham Lincoln and General Grant as one who does things and does them with simplicity and punctuality.

Along with the other millions of the United States I am glad to shy my hat into the ring and to hurrah for Lindbergh! If I were to have another son I think I would call him Lindbergh, for there is no man whose example I would want him to imitate more than Lindbergh's, an example of adventurous youth combined with those sterling qualities of simplicity and modesty which ought to characterize a great man.

After all he does not seem to want anything. He does not ask for our money or our votes. He only wants a chance to go to work at that work which he understands best, which is flying. I hope he will stick to this and show us an example of a man who takes delight in doing that which he can do.

The World AND THE Mud Puddles

THEY WANT WHAT THEY WANT

There has been a Pan-American Conference at Havana. There have been many Pan-American performances since the beginning of the present century, including the Pan-American Exposition at Buffalo and a beautiful Pan-American building erected at the Nation's Capital. The primary aim of all this is the sale of American goods to Central and South American countries. Talk as much about Peace and Good Will as the diplomats may, what citizens of the United States most desire is a market for all things grown and made in this Nation. That is about all Wars are for as well as Peace Conferences.

It may be better now but if it is, it has not been for long. The merchants of North America are only just beginning to understand the merchants of the Spanish and Portuguese Nations south of the Rio Grande. European nations have heretofore had pretty much their own way there. The War did make some difference for from 1914 to 1921, at least, Germany, France and England were too busy at home to think much of Central and South American trade.

It was during the War that the Cloth Merchants of Chili turned to the United States for a supply of an atrocious red shade of cloth with which to supply the native trade. The Indians of Chili are very numerous and pretty well-to-do. They have worn, generation after generation colors which to say the least, are not artistic to the Caucasian eye, but it is what they wanted. Germany had heretofore supplied them with the exact shade demanded.

A Chilian Wholesaler asked a United States salesman visiting Santiago in the interest of several manufacturing concerns in this county if any of his Houses could supply the cloth of the particular shade. The salesman was certain that the exact duplicate of the cloth, texture and color, could and would be shipped and the order was given him pronto.

When the shipment arrived the cloth was excellent, but the color was a beautiful red. A letter accompanied the shipment in which the manufacturing house thanked the Chilian for the order and further said that believing the sample sent had faded, they sent them a real red shade! Would the Indians buy? They would not. And it took the Chileans nearly three years to beat it into the brains of the North American manufacturers that they knew exactly what they wanted and did not thank them for any substitute.

When the North American merchants get to understand the South American trade and the South American mind, perhaps there will be less need for so many Pan-American meetings and conferences.

Just Folks

LITTLE THINGS

It's the little things we do
That win love for me and you.
Life's rush of many deeds.
Fame has endless hills to climb.
Even faith has varied creeds.
There are many form of rhyme,
But the need for kindness stays
To the end of all our days.

Love is in the thought we take
For the ones the great forsake.
In the summer flowers we pick.
And the minutes that we spend
In remembering the sick;
In the little sums we lend.
Love is in the simple goals
Which are reached by gentle souls.

There's a fame of wit and skill,
Of enduring strength of will.
There's a cleverness of brain
And a glory of the strong
And all these in time attain
Admiration from the throng.
But the courage to be kind
Leaves a greater love behind.

Not the man who rules the state
In the fullest sense is great.
For the best-loved man is he
Who, within his neighborhood
Plays the friend and tries to be
Thoughtful, generous and good.
And, despite life's urge and press,
Still finds time for kindliness.

CHARLES B. DRISCOLL

CONTINUING CREATION.

Dr. Robert A. Millikan tells us that his recent investigations point to the belief that we who now inhabit the earth are verily present at the Creation.

If there is any scientific "fact" that has been well-established in the minds of savants it is the "fact" that there is no growth of the material world; that the number of minute particles in the universe is constant; never increased. No smallest bit of material is ever added to the material universe, we are taught most solemnly. When a meteorite falls upon the earth, the earth merely gains what some other celestial body has lost and that's that.

But Doctor Millikan who is one of the most astute scientists the race has thus far produced announces a theory which makes room for some new thinking.

* * *

It's all very complicated and full of scientific terms. But reduced to everyday language and plain if not exact terms it is something like this. There is a constant elemental fireworks going on out in space. Something is happening to those mysterious invisible somethings that we are learning to call atoms, molecules, electrons and cosmic rays.

New energy is being actually created not in niggardly thimblefuls but in terrific driving shafts of power. These shafts are striking the globe on which we live and probably all other globes and masses that go sailing through space about us, constantly and tremendously. What are they doing to us?

What are the cosmic rays performing when they thrust themselves against the earth with such force that they penetrate two hundred feet into the depths of bodies of water in which Millikan has been experimenting?

* * *

It seems that these cosmic rays are connected with the continuous creation of new atoms. Whatever superhuman force it was that put this planet here and arranged the invisible atoms into trees and rivers and bugs and human hearts is still at work doing stupendously the never-ending work of Creation.

If that doesn't give us something to think about when the lights go out next time I don't know where to find thought-stuff.

Bible Thought For Today

ALL GOOD GIFTS:—Bless the Lord, O my soul and forget not all His benefits; Who forgiveth all thine iniquities; Who healeth all thy diseases; Who redeemeth thy life from destruction; who crowneth thee with lovingkindness and tender mercies; who satisfieth thy mouth with good things; so that thy youth is renewed like the eagle's. Psalm 103:2-5.

PRAYER: O satisfy us Lord, early with Thy mercy that we may rejoice and be glad all our days.

Justice To Set Date Of Trial For Mrs. Knapp

Woman Secretary In New York State Will Soon Go To Trial

BEING HELD UNDER EIGHT INDICTMENTS

By RAYMOND L. BORST
International News Service Staff Correspondent

ALBANY, N. Y., April 11.—With eight indictments hanging over her head, six charging her with felonies and two with misdemeanors for alleged juggling of the $1,200,000 census fund of 1925, Mrs. Florence E. S. Knapp, New York's first secretary of state, was to appear in supreme court today to hear Justice Stephen Callaghan fix the date for her trial.

In addition Mrs. Knapp, through her attorney, John J. Conway of Albany, was to enter a formal plea of not guilty to the two indictments handed up against her late yesterday by the special grand jury investigating the census scandal at the request of Governor Al Smith.

May Increase Bail

At liberty in $6,000 bail—$1,000 for each indictment returned against her last week—Mrs. Knapp's bond was expected to be increased by Justice Callaghan to $8,000.

George Z. Medalie, special deputy attorney general who is prosecuting Mrs. Knapp, indicted today he expected the grand jury to return at least one and possibly two more indictments against Mrs. Knapp before it completes its investigation next week.

Indications were that Mrs. Knapp's counsel would request the court for at least one month in which to prepare her defense but that Justice Callaghan would fix Monday, April 23, as the date for the opening of the trial.

Determined to fight the charges made against her, Mrs. Knapp is reported to have told her counsel that she will insist upon taking the stand in her own defense when the trial gets under way.

MISSING BOY BELIEVED MURDERED

That Walter Collins, 9, who disappeared from his Los Angeles home nearly a month ago was kidnaped and murdered, has been a theory advanced by police. An oil station operator observed the body of a boy resembling young Collins, covered with newspapers in the back seat of a car that stopped at his place. He gave chase, but lost out.

NEW RADICALS

As far as politics and ideas of government are concerned there are few radicals left. The few may make a lot of noise, but conservatism has crept clear into the ranks of even the poorly paid. The worker may not expect to be a capitalist, but he hopes that his son can get an education, and dreams that he may become a captain of industry.

America once was looked upon as a radical experiment in democracy. It is pretty close to being a stronghold of conservatism today. Once let a man get a garage back of his house, on a little piece of land that belongs to him, and he has scant sympathy with the soap box orator who tells him the country is all wrong.

POWER COMPANY MAKING LARGE EXTENSIONS HERE

(Continued From Page One)

to the new Cascade substation, these two points being among the most interesting in gaining a perspective of the hundreds of miles of service lines that carry power and light to industries large and small and to the people not merely in New Castle but throughout the important sections of Lawrence county.

Work of Magnitude

So constantly and unostentatiously is the Pennsylvania Power Company adding to its facilities throughout this industrial district and extending its lines to new sections of the county that few, if any, persons outside the company realize the magnitude of the work that is done.

New Castle is not only the metropolis but also the geographical center of Lawrence county. From the city in all directions like the spokes of a wheel radiate the distribution and power lines of the company. These are being added to right along and new facilities are being added within the city.

Power Centre of District

The Cedar street substation, the first objective of Friday's trip, is destined to be the power center of the district, receiving its power from three distinct and separate sources, a total of nine power circuits coming into the district, assuring ample power at all times and under all circumstances short of widespread catastrophe.

Some of the power transmission circuits come from the Lowellville power station and others from Ellwood City, south of which is the tie-line between the Penn-Ohio System and the Duquesne Light company of Pittsburgh for the interchange of power between the two systems as the occasion arises.

The third source of power is the Toronto power station of the Penn-Ohio System on the Ohio river. Direct 132 kv. transmission circuits will connect this great power station with the Cedar street substation, coming to New Castle from Toronto by way of North Lima, O. The right of way for this power line has been secured and forces of men are now at work clearing it for the erection of the massive steel towers and the stringing of the cable by Stevens & Wood Incorporated, which will speedily follow.

Double Capacity

The capacity of the Cedar street substation, now approximately 19,000 horsepower, will be more than doubled this summer by the placing of a 20,000 kva. bank of transformers adding about 27,000 horsepower. This improvement involves an expenditure of approximately a quarter of a million dollars.

From the Cedar street substation power lines extended to the other substations of the city, that in West Washington street and the new Cascade sub. From here also radiate the distribution circuits serving the 7th ward and power lines to the plants of the Carnegie Steel company and the American Sheet and Tinplate company. The towers for the latter have been completed, the copper cables strung and it is about ready for service.

Not only is the power for the Cascade substation, recently completed at a cost of $100,000 supplied through Cedar street but the whole substation is controlled by the operators at Cedar street by application of one of the latest developments in electrical engineering. This is the Westinghouse synchronous visual type supervisory control, whereby the automatic switching apparatus in the substation may be controlled at will by the operators in the Cedar street station three miles away.

Lights on the special board at Cedar street show whether any of the switches at Cascade is opened or closed. Should a switch be opened by a surge of electricity it may be closed again from Cedar street by the mere touch of a button. The supervisory control which makes possible this opening and closing of switches at a distance is an application of the same principle used in the Televox, the wonder "mechanical man" whose actions are controlled by sound transmitted by telephone.

This installation assures the most flexible and constant service on all the circuits radiating from the Cascade substation through the eastern residential and industrial section of the city, reducing greatly the probability of interruptions on these circuits.

But it is not only in these larger matters that the Pennsylvania Power company has added to its facilities for the service of the people of Lawrence county. In the last year 22 additional miles of rural lines have been constructed and the advantages of electric service have been placed at the disposal of additional communities including Volant, Harbor Bridge and Rose Point. Smaller substations than those mentioned have been increased in capacity, that of the Pulaski substation having been more than trebled while the city has been almost surrounded by a power loop, which, upon closing of one remaining link, will permit the feeding of power into any section from either of two or more directions as occasion may require.

Konjola Banishes Health Troubles For Local Youth

Says New Medicine Ended Liver And Kidney Troubles.

MR. ALEX MROZEK
Seavy Photo

Konjola is helping thousands of people who were never benefited by any medicine or treatment before. The new compound acts upon the stomach, liver, kidneys and bowels, cleansing the whole inner-system and thus bringing relief to people who suffer from disorders of these organs. At the same time Konjola brings a new feeling of health over the whole system.

The remarkable remedy has been indorsed by many New Castle people in all walks of life. One of the latest statements came from Mr. Alex Mrozek, R. D. No. 8, New Castle. Mr. Mrozek made the following statement in an interview with the Konjola Man who is at the Love and Megown drug store, 204 East Washington street, where he is daily meeting the public and explaining the merits of this compound.

"The way Konjola reached the source of all my health troubles was surprising", said Mr. Mrozek. "I had been trying different remedies for so long I didn't think one medicine would ever end my miseries. But now that my health is back to normal I give full credit to Konjola and I want to indorse this medicine every chance I get.

"I had been suffering from liver and kidney trouble for a long time and these ailments gradually weakened my whole system. Because of my kidneys I would have to rise several times during the night, and this broke up my sleep so that I was always tired and worn-out in the day. My liver was very sluggish and caused my complexion to be of a yellowish color. All day long I would have severe headaches. Finally my stomach became affected and for the past several months I had to be very careful what I ate. After every meal I would have awful gas and bloating spells. The gas would press against my heart making it flutter and palpitate terribly. As the months passed my condition gradually became worse and I thought I would never be well again.

"After trying so many different medicines without getting relief, I didn't know what to do for myself. Finally I heard about Konjola and the good it had been doing for other sufferers so I decided to give this medicine a trial. It is a blessing that I did because it completely ended all my health troubles. My kidneys are stronger and never force me to get up during the night. Of course, my sleep is sound and restful and I get up the next morning feeling refreshed and full of energy. Konjola regulated my liver and drove all the poisons from my inner-system. My complexion has cleared up and I never suffer from those awful headaches. You can imagine my surprise when I also noticed the stomach trouble leaving me. I am now able to eat anything that I want without suffering the least bit afterward. In every way my health has improved. It is wonderful to know that there is a medicine like Konjola in the drug stores of New Castle and I will always recommend and indorse this medicine to everyone."

The Konjola Man is at the Love and Megown drug store, 204 East Washington St., New Castle, where he is daily meeting the public and introducing and explaining the merits of this remedy.

23 YEARS OF DIVIDENDS ON P.-O. SYSTEM PROPERTY

WASHINGTON, April 11.—The legitimate drama is disappearing from the American stage, William A. Brady, famous producer and theater owner, declared Tuesday in pleading before the Senate finance committee for a repeal of all amusement taxes.

Brady said the elimination of taxes on small admissions had given the movie industry $63,000,000 relief in two years, while the legitimate theater received no relief. He declared that while 900 theaters staged dramatic shows in 1918, but 200 theaters were open today to the "spoken art".

BRAKES
cause accidents
or prevent them
-which kind are yours?

It only takes one skid—one emergency in which brakes fail to hold—to cause an accident. It might be slight—perhaps a jammed fender—and it might cost a life. Why gamble with chance? Brakes, out of balance or not equalized will cause a car to skid to the right or left. Four-wheel brakes—when out of adjustment—add no more to your ability to stop than two-wheel brakes. Your car is only as safe as its brakes. Keep them in perfect adjustment.

We have installed a new JUMBO Giant Brake Tester that scientifically tests two or four-wheel brakes. Use our accurate test every 1500 miles. If adjustments are needed we will make them quickly—at a very reasonable charge.

See For Yourself
Right before your eyes—on accurate hydraulic gauges—the JUMBO Brake Tester reveals the true condition of the brake on each wheel. Eliminates all chance for human error—no guesswork. Assures positive equalization and perfect balance of brakes—maximum braking efficiency—"guaranteed safety!"

POTATO STOCKS REPORTED LOWER

Stock Of Potatoes On Hand In Northeastern States Lower Than Year Ago

(Special To The News)

HARRISBURG, April 11.—Potato stocks on hand in northeastern potato states, including Pennsylvania, were reported by the U. S. department of agriculture to be less than a year ago, although stocks held in states west of Minnesota were reported to be substantially heavier than on March 1 last year. This fact accounts for the recent heavy receipts from Idaho and other western states at Pennsylvania carlot markets, says the bureau of markets, state department of agriculture.

In spite of the shortage in the eastern states, prices have not advanced as greatly as might have been anticipated, due to the excess in the western states and the country as a whole, the bureau states. The effect of the heavy western shipping is shown in the supplies in many of the largest markets of the country where two to three times as many cars of potatoes have been on hand recently as were available at these markets a year ago.

Shipments of new potatoes from the southern states are increasing slowly. During the week ending March 31, 125 cars of new potatoes were moved to market, 90 from Texas and 55 from Florida. During the corresponding week last year Florida shipped 345 cars and Texas 100.

This lighter competition from new potatoes does not necessarily mean additional strength for the late potato market since it appears that there are more late potatoes yet to be moved this season than during the same period of last season. Fully 22,000 cars of late stocks were shipped from all sections after this time last year and a recent trade report indicates that there are 25,000 more cars of the 1927 crop available for shipment.

New Dormitory Rooms In Demand

Boys' Hall At Westminster To Be Placed In Use Next Fall

(Special To The News)

NEW WILMINGTON, Pa., April 11.—A number of rooms have already been reserved in Robert Audley Browne dormitory for men at Westminster and applications for reservations are coming in daily from young men who plan to enter college next September.

A booklet descriptive of the building, containing floor plans and residence regulations, has been issued by the college and is being mailed this week to the large group of high school senior men who have expressed their intention of enrolling at Westminster in the fall.

Work on the structure is going forward rapidly. Supervising Architect Malcolm H. White reports that the job of installing the wardrobes in the second and third stories is now under way, all plastering has been completed and other finishing work is in progress. The building will be completely finished and ready for inspection by commencement time, according to workmen on the job.

College Fraternity Honors Local Man

(Special To The News)

NEW WILMINGTON, Pa., April 11.—Epsilon Theta Pi fraternity of Westminster college announced today the election of the fraternity officers for the coming year.

Albert Dodds, a New Castle man, was elected to the position of house manager. The other officers elected were: President, Roy Vance of New Wilmington; vice president, George Atwell of Butler; secretary, Amendeus Profia of Cecil; treasurer, Harold Fiscus of Sharon; corresponding secretary, Paul Robinson of New Wilmington.

Gives Your Hair Unusual Beauty

The attractiveness of even the most beautiful women depends upon the loveliness of their hair.

Fortunately, beautiful hair is now easily obtained. It is simply a matter of shampooing.

Proper shampooing makes the hair soft and silky. It brings out all the real life and lustre, all the natural wave and color, and leaves it fresh looking, glossy and bright.

While your hair must have frequent and regular washing to keep it beautiful, it cannot stand the harsh effect of ordinary soaps. The free alkali in ordinary soaps soon dries the scalp, makes the hair brittle and ruins it.

That is why discriminating women, everywhere, now use Mulsified Cocoanut Oil Shampoo. This clear, pure and entirely greaseless product brings out all the real beauty of the hair and cannot possibly injure.

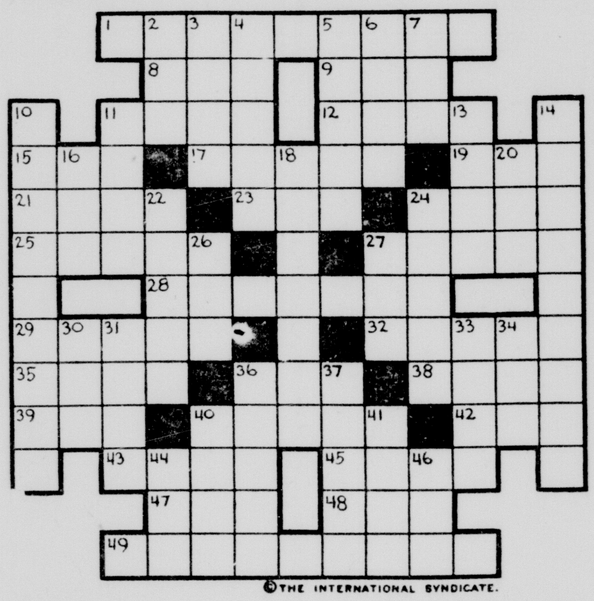

Two or three teaspoonfuls of Mulsified is all that is required. It makes an abundance of rich, creamy lather which cleanses thoroughly and rinses out easily, removing every particle of dust, dirt and dandruff.

It leaves the hair soft, silky and easy to manage and makes it fairly sparkle with new life, gloss and lustre.

You can get Mulsified Cocoanut Oil Shampoo at any drug store.

A four-ounce bottle lasts for months.

PETER'S ADVENTURES in ANIMAL LAND

BY MRS. FLORENCE SMITH VINCENT

LIVING IN AN OVEN.

Until now the little lady bird had done all the talking. But it this point her husband took up the conversation.

"We think we made a pretty good job of it too." He nodded at his wife. "She did a great part of the work, but I helped her. What good times we did have hunting for the straw and grass stems—and they are not easy to find either at this time of year. First she would weave and plaster these together and when I found she was getting along all right and didn't need me off I'd fly for a fresh supply and coming back would take my turn at the building while Wife went to gather up the material. In this way neither of us got very tired.

"Tap on the walls of our oven house if you like. They are very thick. No rain can get in—and the sun has dried the mud with which we plastered it so hard that it is as safe as a home can be."

Peter looked at the house and then at the birds .He was more astonished than ever.

"You are the cleverest architects that I have met in Birdland. Do you mind if I look inside your door? Why you have two rooms. How large they are!"

"Yes, Indeed! Husband and I could never think of housekeeping in less than two rooms!" Mrs. Oven Bird took upon herself to answer. "You see we believe that children need the sofest featherbeds and perfect quiet if they are going to grow up strong and well. So the bedroom is in the back. There are four eggs in there now. The front of the house we use for a living room and it is very convenient when it rains or when we sight trouble in the air—a hawk, for instance. We can watch the world from our front door. We seldom roam far enough from home so that we couldn't run into our oven at the first sign of danger."

"But you didn't see me. I might have hurt you' cried the Boy.

"Oh yes we did" answered Mrs. Oven Bird.

"Oh no you wouldn't!" cried her husband. "We are never afraid of Humans although we would have flown away if you had tried to attack us. But Humans seldom try to harm us. Even if they should they are such slow things that they could never catch us—we would run too fast."

Just at that moment the sun came out from behind a cloud and shone upon the Oven Birds and for the first time the boy noticed that they both wore crowns—gold ones edged by a black line.

"Do you belong to the Royal family?' Peter couldn't help being curious.

The Oven Birds laughed.

"Why do you ask if we are of royal blood? Because we wear crowns?" Mrs. Oven Bird queried. "Crowns may be a mark of royalty—they may not—but we are proud of ours just the same. In our opinion there are no finer birds than ourselves in the land."

Frenzied Fiction Will Be Discussed

Noted Humorist To Make Address At Westminster April 18

(Special To The News)

NEW WILMINGTON, Pa., April 11.—Stephen Leacock, world-known humorist, will speak to the Westminster student body and faculty Wednesday evening, April 18, on "Frenzied Fiction", according to Dr. Charles A. Dawson, director of the lecture course.

A professor of economics at McGill University in Canada, Mr. Leacock has the academic insight plus the sense of the ludicrous to make even the most prosaic subjects alive and interesting. He has been called "the great international josher" by many, and has found as much to laugh at among his own Canadians as he has among Americans.

Among the well-known books by the "Canadian Mark Twain" are "Behind the Beyond", "Further Foolishness", "Nonsense Novels", "Literary Lapses" and "Essays and Literary Studies".

Mr. Leacock can give but a limited number of lectures each year, so Westminster folks feel fortunate in hearing the man who is heralded as the one who has made thousands laugh without hurting anyone.

College Students Practice Teaching At High School

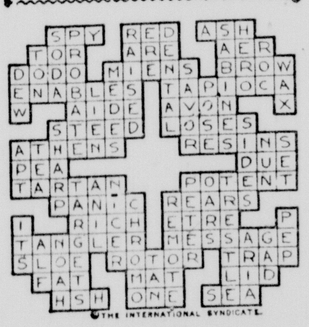

Several Westminster college students are doing their practice teaching at the senior high school this week, announces Frank L. Orth, principal of the school.

The students and the subjects they are teaching are as follows: Clare Swisher, English and journalism; Leland Cooper, chemistry and mathematics; Mildred Burleson, English; Margaret Lennig, English; Jay Colter, biology.

The students stay for a period of two weeks, observing the classes during the first week and teaching the second.

NO DANDRUFF NOW

This matter of keeping hair free from dandruff is neither the complicated nor expensive one that most women consider it. Usually the trick can be done by regular shampooing and the systematic use of Listerine, the safe antiseptic.

At the first sign of dandruff, you simply douse Listerine on the scalp full strength, and with the fingers, massage the scalp vigorously forward and backward, then up and down. In a surprisingly short time you will be delighted with results. We have hundreds of unsolicited letters testifying to the success of Listerine in checking dandruff. Commercial Course At New Wilmington

School Board Acts To Add New Course; News Of College Town

(Special To The News)

NEW WILMINGTON, April 11.—Progress with relation to the curriculum of the local high school is now assured through the action of the New Wilmington school board which, in this week's meeting, voted to add a commercial course to the courses already taught in the college town school.

Final outline plans for the new course have not yet been decided upon, but it is thought that one or two teachers will be taken on to conduct the classes and that the main subjects taught will be typewriting, bookkeeping, shorthand, commercial law and whatever else may fit in well.

Spring weather is attracting many of the local high school fellows out in the field where they are preparing for the coming track season. Tom Hutchison, Howard Eagleson, Gerald Newton, Bob Herriott and Wilbur Patterson are among those who will compete on the track and field for the college town high school this season.

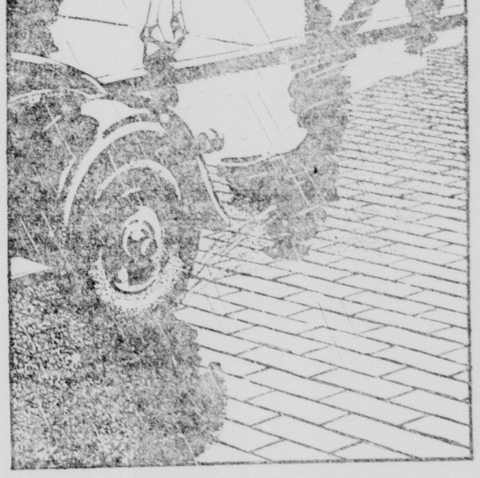

Mr. and Mrs. J. H. McQuiston entertained Rev. and Mrs. J. C. McQuiston of Cochranton and Miss M. McQuiston of Wilkinsburg in their home here for a few days this week.

John H. Boyd left today for the University of West Virginia where he is studying medicine. Mr. Boyd visited his parents during the Easter vacation period.

One way to play hookey from the school of experience is to get elected vice president.

To be truly cheap Pavements must resist weather

—BRICK DOES

Weather damage, along with heavy traffic, must be considered in making a wise paving investment.

A pavement surface that is not constructed to prevent it, takes in water by absorption or through cracks. In cold weather this freezes, expands, destroys. Or sets up destructive chemical change. On to this pile the pounding of 10-ton loaded trucks, heavy busses and other heavy traffic, and big maintenance bills are inevitable.

Paving brick, being vitrified, cannot absorb water. Laid on any good base, with sand cushion and bound with asphalt, the brick surface is impervious. Weather does not injure this surface, or get through it to injure the base. It is subject to no chemical changes at all; it has necessary resilience, or "give" to keep shocks, pounding, from the base; it is the toughest wearing surface man makes.

Brick surfaced pavements save money because they are so durable and cost less to maintain.

"The A. B. C. of Good Paving," a taxpayer's manual, tells in words and pictures how engineers today build ever-wearing, low cost, brick surfaced roads and streets. Address your request to National Paving Brick Manufacturers Association, 332 South Michigan Avenue, Chicago.

New Castle Party Greets President

Teachers And Students Of High School Make Visit To Washington

A party of eight students of the Senior High school accompanied by three members of the school's faculty spent three days of their Easter vacation enjoying the sights of Washington, D. C.

The group which included the wife of one of the faculty members left New Castle for the capital on Wednesday morning and arrived in the city on the return trip on Sunday evening.

According to Oscar J. Sheaffer, head of the history department at the local high school who was one of the sightseers on the trip the students visited practically every important place in the city, taking in the Washington monument, the Lincoln memorial, the house and the senate chambers as well as many other places of national renown and enjoyed the entire trip immensely.

One of the features of the excursion was the visit paid President Coolidge at the White House where each of the students shook hands with the chief executive, while another was the attending of the sunrise service held at Temple Heights on Sunday morning.

Glancing over the program of the service Mr. Sehaffer ran across the name of the Rev. Fred C. Reynolds a pastor of one of the Methodist churches in Washington who is well known in this city. He had a part in the service.

Mr. Sheaffer states that the party was given the privilege which only a few visitors of the capitol building enjoy, that of riding on the underground railway which connects the senate chamber with the wing which is occupied by the house of representatives used almost entirely by congressmen.

In replying to a question concerning the weather while they were there Mr. Sheaffer said: "When we left Washington the cherry blossoms were blooming and everything was almost summer-like. We enjoyed fine weather during the trip."

Those who made the trip were Mr. and Mrs. O. J. Sheaffer of Carlisle street; Miss Eleanor Galbraith of Leasure avenue and Miss Marjorie Rhodes of Beckford street; the latter two teachers at the high school. The eight student-excursionists were Allene Mears, Ruth Moorhead, Mary Elizabeth Pitzer, Clara Alice Mitchell, Helen Clark, Edwin Christine, Francis Sage and Dante Ferrante.

Girl Debaters To Complete Season

Westminster Girl's Teams To Meet Both Bethany And Waynesburg

(Special To The News)

NEW WILMINGTON, Pa., April 11—Finishing up the women's forensic activities for another year the Westminster women debaters will meet both Bethany and Waynesburg on the platform this week. The Bethany debaters will be met on Thursday evening at the United Presbyterian church in New Wilmington with Westminster taking the affirmative side of the question which concerns the abandonment of the direct primary election procedure.

On Friday night another Blue and White affirmative team consisting of June Schwartz of Pittsburgh, Cora Williams of Cresson and Kathryn Boobyer of Pittsburgh will meet the arguments of a negative team from Waynesburg.

Westminster will also have a negative team on the road. This team consists of Hazel Brush of Carnegie, Carol Clark of Johnsonburg and Isabelle Hitchings of Warren, O. They will debate West Virginia at Morgantown, W. Va., and Waynesburg at Waynesburg.

Two New Castle girls will debate against Bethany in the first home debate on Thursday night. The team consists of Evelyn Winger of New Castle, Edith Round of New Castle, and Margaret Young of Pittsburgh.

Union Railroaders To Have Big Time

General Master Mechanic Of The Baltimore And Ohio To Be Present

The Federated Shop Crafts of this city will on Thursday evening at eight o'clock, in the Trades and Labor Assembly hall, North Mill and Washington street, enjoy a feed and social time. Indications are that several hundred men will be in attendance.

The guest of honor of the occasion will be Harry Reese, general master mechanic of the Akron division of the Baltimore and Ohio railroad.

There will be the feed and the program will consist of speaking, boxing numbers, vocal and instrumental selections and a general good time is assured all those so fortunate as to be present.

The crafts included in the federation and participating in the event are the machinists, boilermakers, carmen, sheet metal workers and electricians.

Members of the committee in charge of the event are Bert Seaman, Harry Pitzer, A. G. Skunder, C. N. Allen, Mike Schuller and Mr. Kienast.

STOMACH UPSET

Get at the real cause. That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

Have you a bad taste, coated tongue, poor appetite, a lazy, don't-care feeling, no ambition or energy, trouble with undigested foods? Take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. Know them by their olive color. They do the work without griping, cramps or pain. All Druggists.

Take one or two at bedtime for quick relief. Eat what you like. 15c, 30c, 60c.

"Now I find it *easy* to have soft, pretty hands, in spite of dishes to do three times a day. I discovered that by using Lux for all my dishwashing, my hands never became rough or red or chapped-looking. With Lux, they are even WHITER and softer after washing dishes than before!"

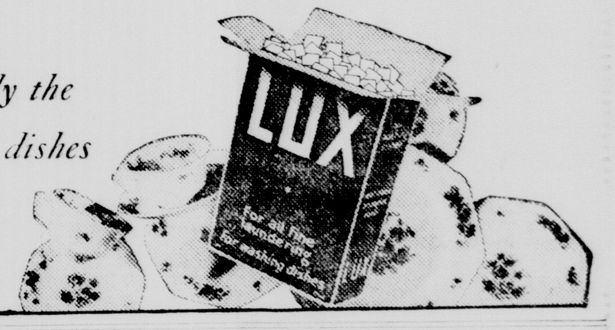

Millions of women who do their own work now have hands as flawless, as lovely, as if they never touched the dishpan! Because they wash dishes with delicate, sparkling Lux suds!

For these instant, magical suds are SOOTHING to even the most sensitive skin.* Lux is made by a marvelous special process—made whiter and thinner and purer than anything else. There is no trace of harmful alkali in Lux, nothing to dry up, to coarsen the skin, as there is in ordinary soaps—whether flakes, chips or cakes.

And Lux costs so LITTLE! In one of the big packages there is enough Lux for 6 weeks' dishes! So little to pay for beautiful hands!

Blue Ribbon Trees On State Forests

State Department Adopts New Method Of Designating Young Trees

(From News Bureau) (State Capital)

HARRISBURG, April 11.—Prized livestock, poultry, dogs and cats may have their blue ribbon winners but they now have nothing on scores of young trees growing in State forest lands of Pennsylvania. The Department of Forests and Water has adopted the system of blue ribbon trees to designate the trees for the ultimate stand in timber tracts.

J. S. Illick, State Forester, is the originator of the scheme for blue ribbon trees. He adopted the plan after his last tour of European forests.

Along the Lincoln Highway in Franklin county is a stand of young white pine trees planted by the State about twenty years ago. Passing motorists can see the blue ribbon trees in this stand. All trees designated for the ultimate stand in the tract have been designated by a blue band painted around them by State foresters.

While in the Black Forest of Germany the Pennsylvania State Forester saw numerous trees with colored bands painted on. Inquiry revealed that the ones with the yellow bands were the ones picked out for the ultimate stand.

Realizing that the American public is not strong for the color yellow especially for a prize winner Dr. Illick decided upon his return to pick out the most promising trees and designate them with a blue band. "Most of our prize winners at fairs and other exhibits win the blue ribbon for first place and I decided that blue would be a good color for prize winning trees," he says. The most promising trees are selected after a careful study and painted with a blue band. This is the first state in the Union to pick out its trees for the future with a distinctive color band, the Forester believes.

There will always be stiff collars for the man who can't feel dignified and important without one.

Varsity Debaters Split Even For Recent Season

Win Five And Lose Five Debates During Series Of Contests

(Special To The News)

NEW WILMINGTON, Pa., April 11.—Westminster's varsity men's debate team closed the season recently with a record of five victories and five defeats for the year. With a triumph over Rutgers University at New Brunswick, N. J., a week ago, the forensic teams closed the year.

Facing the problem of filling the positions left vacant by the graduation of Brown Bricker and Robert Ferguson, the Blue and White orators finally recruited enough new material to place four teams into intercollegiate competition.

After considerable preparation with Dr. C. A. Dawson as coach the season opened with a dual debate with Washington and Jefferson at New Wilmington on February 20. Here a team composed of Samuel Colman of Philadelphia, Howard Hamer of Erie, and Halden Williams of Carnegie won an audience decision over the Presidents on the subject, Resolved: That the United States should not, without formal declaration of war, protect the foreign private investments of its nationals by military force.

In the second contest of the year on March 1, Westminster lost both sides of a dual clash with affirmative and negative teams of Waynesburg College. The affirmative team in the encounter met the Yellowjackets at Waynesburg, while the negative team debated at home.

Allegheny College was met on March 7 when two teams from each institution met on the platform. The affirmative team, contesting on the home platform, lost by a 2 to 1 decision, while the negative team, invading Meadville won by a 2 to 1 count.

The contest on March 12, was in the form of a triangular debate with Grove City, Geneva, and Westminster competing. The affirmative team was successful in its debate with the Grovers, but the negative team lost to Geneva.

On March 15, Westminster split even with Bethany when the United Presbyterian negative team defeated the Bison at Wellsburg, and the affirmative team lost on the home court.

The men who participated in intercollegiate debate at Westminster this year include: Clyde Myers, New Castle; Halden Williams, Carnegie; Samuel Colman, Philadelphia; Howard Hamer, Erie; Thomas Manseil, New Wilmington; Petey Botsford, Pittsburgh; James Chambers, New Castle; Wallace Maxwell, New Wilmington; Paul Campbell, Pittsburgh; David Wallace, Rockville Center, N. Y.; Harry Boyce, Pittsburgh; Albert Milford, Butler; and Kenneth Dyer, Pittsburgh. Of this squad, Halden Williams and Clyde Myers are the only ones to be lost by graduation.

Section Of Perry Highway Graded

BUTLER, Pa., April 11.—Another section of the Perry highway in Butler county is being graded. It will complete the highway between a point a mile south of Zelienople to the Butler county line, a little more than seven miles. While no announcement is made, there is the belief that contracts may be let this year for parts of the Perry highway north of Portersville, towards Mercer. The highway will cut the distance between Pittsburgh and Erie about 18 miles.

Making Runways At Landing Field

Work Being Rushed In Preparation For Landing Of Chamberlin

Every effort possible is being made to get the landing field on the Harlansburg road ready that Clarence D. Chamberlin may land there on Thursday on his visit to New Castle.

Five large motor trucks are hauling cinders for a runway the length of the field, while a team of horses and a tractor are dragging the runway and rolling the field and some 24 men donated by the Carnegie Steel company and the American Sheet and Tin Plate company are assisting in the work.

Although the new airport was quite sticky yesterday after the snow of the past few days and the freeze of the night before, the airport committee of the Chamber of Commerce hopes to have it in shape by the time of the arrival of Chamberlin tomorrow.

The field which is located on the farm of C. L. McMillan lies along the Harlansburg road about 5 miles east of New Castle at McCaslin. The field is 2000 feet long east and west and a cindered runway is being built the length of the field. When completed the field will also have a north and south length of near 2500 feet. It is one of the most prominent places in this part of the county and has a natural slope in three directions making it easily drained. A view for from 5 to 8 miles can be had in every direction.

Over 30 apple trees have been removed and several more will be removed on the south side of the field to make it a complete place for an airport.

Twenty Horses At Fair Grounds Track

Preparations Being Made To Start Spring Training Of Horses

Some 20 race horses are stabled on the New Castle Fair grounds and each day are put through their paces in preparation for the coming racing season.

Many of the race horses have been there during the winter, while others have been brought there lately so that they may have a chance to train on the track as the spring weather puts it in shape.

All other parts of the fair grounds look quite bleak compared with the lively scene it presented last fall when the fair was in full swing. The cattle sheds are empty and the buildings are tightly closed while midway with its shouts and bustle is now nothing but a cinder roadway.

SLIDING DOWN BANISTER BOY BADLY INJURED

CONNELLSVILLE, Pa., April 11.—Dropping 20 feet to the concrete ground floor of the Royal Hotel, after losing his balance while sliding down a banister from the third floor to the second, Robert Juillerat, 8 years old, fractured his skull, and is in a critical condition at the hospital. The boy is a son of Mr. and Mrs. Leroy Juillerat, who came here recently. The father is manager of a local store.

"I SLEEP FINE AND FEEL LIKE DIFFERENT MAN"

Another New Castle Citizen Finds Way To Health By Using Famous Ten Herbs

"After using Ten Herbs, I sleep fine and feel like a different man," was the statement of Mr. Harry Reiber, 1724 East Washington street, New Castle, to the Ten Herbs Man, who is at Eckerd's of New Castle, Inc., 30

MR. HARRY REIBER

East Washington street, this city, where he is daily demonstrating this celebrated herbal medicine.

"I used to have a very bad stomach," continued Mr. Reiber, who is a pipe-fitter. "The gas on my stomach was very distressing, and I had to be careful what I ate. I had pains in my back. My skin broke out in spots, and I was troubled with neuralgia. There were pains in my neck, and at times I had dizzy spells, as my liver was disordered. My nerves were unstrung, and I did not sleep well. I was troubled with constipation all the time. Riding in an automobile gave me pains all through my body. I even had my teeth extracted, but that did not help my condition.

"A friend advised me to try Ten Herbs, and the third bottle convinced me of the merits of your medicine. I can eat three good meals a day, and sometimes it seems as though I cannot get enough to eat, my appetite is so good. I never have any more gas on my stomach, and my bowels are regular. The pains are gone from my neck and back, and my kidneys are working properly. I do not have any more dizzy spells, as my liver is in good condition. Automobile riding does not even tire me now. I gladly endorse Ten Herbs to the public."

Everyone should take Ten Herbs in the spring. Its wonderful herbal ingredients purify and enrich the blood by cleansing the entire system, toning up the stomach and kidneys, and regulating the liver and bowels. Ten Herbs prevents spring lassitude, as it seems to impart new life and vigor over the whole body. It has helped many others in this section and why not you?

The Ten Herbs Man is at Eckerd's of New Castle, Inc., 30 East Washington street, this city, where he is daily meeting the public and explaining the merits of this medicine. Free sample given.

Trades And Labor Assembly Plans For Open Meeting

Open Meeting To Be Held Tuesday In Interest Of Retail Clerks

At the regular meeting of the Trades and Labor Assembly held Tuesday evening, April 10, in their hall on Mill and Washington streets, plans were discussed for the open meeting to be held next Tuesday evening, April 17 at 7:30 o'clock.

Since the discussion of next week's meeting is concerning the retail clerks, all clerks of the city are especially invited.

All Trades Assembly meetings are open to anyone belonging to local Unions to sit as a listener and the freedom of the floor is given during the good and welfare period.

The Assembly is also planning for a very elaborate celebration of Labor Day next fall to be in keeping with the annual big event.

To Tell Students About Mexicans

James Caleb Sawders, noted speaker, will deliver an illustrated lecture on "Mexico and the Mexicans" to the students of the senior high school on Monday morning, April 16, at 10:25 o'clock.

Mr. Sawders who has traveled about Mexico considerably will undoubtedly relate an interesting account of his experiences there.

He was formerly connected with the University of Pittsburgh.

Why buy performance that *CHRYSLER "72"* has *obsoleted?*.....

Illustrious New Chrysler "72" Crown Sedan $1795

CHRYSLER "72" performance obsoletes all other performance at its price or even for $1000 more.

The first Chrysler, four years ago, put in the discard the cumbersome, bulky vehicles of its day.

Chrysler "72" performance widens that margin of superiority.

No other car today approaches it for roadability, hill climbing, acceleration, dependability, comfort, ease of handling, style, safety, long life and appearance.

For Chrysler's engineering genius and precision manufacture have gone steadily forward to greater heights.

That is why the "72" today gives you performance that sets the pace for the entire industry for years to come. 75 brake horsepower. 72 miles and more per hour. Vibrationless smoothness that only a Chrysler *counterweighted* 7-bearing crankshaft can give. Flashing acceleration in traffic. There are no hills to the "72."

Longer chassis with no side-sway—spring ends mounted in rubber shock insulators give consummate ease of riding.

Why pay a premium for the out-of-date performance others give? See and ride in the Chrysler "72." You will realize then how Chrysler "72"—at less money—makes a dead letter of all other performance in its field today.

M. E. G. Auxiliary Meets Tuesday

Society Holds Regular Monthly Meeting Tuesday Evening

Mrs. George Horchler was hostess to the members of the M. E. G. auxiliary of the Mahoning Presbyterian church in her home Tuesday evening. Twelve members were present. Mrs. Clair Thomas was a special guest. During the evening a program was carried out and a business meeting conducted. Program was as follows:

Devotionals in charge of Miss Mae Park. The home missionary topic, "Negroes in America," in charge of Mrs. Herman Alexander. The foreign topic, "Africa", in charge of Miss Ethel Scheidemantle. Roll call was answered with giving the first forty catechism. During the business meeting delegates were appointed to attend the Presbyterian meeting at the Sharon Presbyterian church on May 2 and 3. Delegates named are Mrs. Walter Hayes, Miss Ethel Scheidemantle and Mrs. C. A. Patterson.

Following the program and business meeting a social hour was enjoyed with chat. At a seasonable hour delicious refreshments were served by the hostess, Mrs. Morchler, assisted by her sons.

The next meeting of the society will be the first Tuesday evening in May at the home of Mrs. Raymond Horchler on W. Clayton street.

CHRISTIAN ENDEAVOR

The Junior Christian Endeavor of the Mahoning Presbyterian church will have a social Saturday evening in the church. The hours are from 7 until 9 o'clock. Recently a contest was conducted and the boys were to give a party for the girls. This party is Saturday evening and all members are urged to be present.

BOY SCOUT Activities

TROOP 38

Troop 38 of the Second U. P. church met in the church Tuesday evening at 7:30. The scouts first lined up and a parade of the colors was held. Inspection was conducted by the scoutmaster, Edward G. Bollard.

After a short business meeting during which dues were paid and good turns given, the weekly announcements were made by Mr. Bollard.

This troop is planning to hold a hike Saturday afternoon, April 14. Tests will be passed and nature instructions given.

Scribe—Don Anderson.

TROOP 15

An interesting meeting of troop 15 of the First Christian church was held Monday evening, April 9, with Scoutmaster Sidney Smith and Assistant Scoutmasters George McCracken and Richard Sheets in charge of the large number of scouts present. After several interesting games the meeting was opened in the usual manner. Haskell Kitchen, Herbert Rodgers, Stewart Loveridge and Fulton Cook acted as color guards and bearers and Archie McClintock and George Macom as buglers.

After several important announcements by Scoutmaster Sidney Smith, dues and good turns were given, followed by a patrol recess during which several tests were passed. The Pine Tree patrol practiced building pyramids for parents' night and the Flying Eagle patrol worked on the flag poles.

Plans were then made for the next meeting which will be held at Pine Tree Grove Thursday, April 20. All scouts are to meet at the corner of Rural and Neshannock avenues at 7 o'clock that evening. In case of bad weather, the meeting will be held at the church. Ralph Montgomery and Fulton Cook are gathering firewood for the camp.

The meeting was then closed in the usual manner followed by a patrol leader meeting.

Scribe—Harold Jones.

TROOP 5

Elks troop 5 will meet tomorrow evening at the Elks home with Scoutmaster Ralph F. Davis in charge. All scouts are expected to be present. Visitors and parents are invited to attend the meeting.

Boy Scout Band

The Boy Scout band is now developing into an organization worthy of its name under the leadership of Harry Truschel and Fred Brewster, with Ralph F. Davis as scoutmaster. Forty members are now on the roll. At each practice night new members are joining and the outlook is very promising.

The heavy jobs in the band fall to Ben Leonelli, who plays the bass drum, and Ormando Lattavo, who pumps the bass horn. Buddie Perdue, the smallest member of the band, plays the clarinet.

The band now consists of 10 cornets, five trumpets, eight clarinets, three trombones, four saxophones, one baritone, one mellophone, two bass horns, five side drums and one bass drum.

Trenton Eckles, trumpeter, was selected as senior patrol leader and Frank Pyle has been named scribe.

Members of the band will wear a special neckerchief and a special musician's emblem on the uniform. These will be ordered at the practice which will take place this evening at 7:30 in the Elks home.

All registered members are asked to be present and any Scout desiring to join the organization is asked to be present at this meeting.

R. F. DAVIS, Scoutmaster.

Sentence Is Cut, Slayer Decides To Marry Widow

(International News Service)

NEWARK, N. J., April 11.—Directly following his marriage to Mrs. Mary O'Brien here, Arthur Betshick, 25, will begin a three-months' jail sentence in expiation for killing the woman's first husband, John L. O'Brien. Betshick confessed that he shot O'Brien, who was his cousin, when the latter reached toward his hip pocket. O'Brien was reaching for a cigaret case, but Betshick thought he was about to draw a gun.

In court here Betshick was offered the choice of six months in prison, or a sentence of three months, if he would marry the dead man's widow. Mrs. O'Brien testified she bore Betshick a child three months ago and wanted to marry him to "give the baby a name." Betshick decided to marry her and thus cut his sentence to three months.

Many a man gets a reputation for moral courage merely because he has nothing to lose by telling the truth.

Kindly note to Mr. Lowden. It is a large country and it's impossible to be elected on one grievance.

Joe thought he lost his hat in the restaurant. Dave ordered a beef stew and thought he had found the lost hat.

It would take a salesman who could meet all the requirements of some advertisements to sell shaving papers to safety razor users.

A man's honor is like the virtue of a woman—or an egg. An egg is good or it isn't.

Spanish Airman Planning Flight To Circle Globe

New Hydroplane Made Ready For Flight Of Commander Ramon Franco

(International News Service)

MADRID, April 11.—Commander Ramon Franco, Spanish ace, who flew from Europe to South America in 1926, is planning a round-the-world flight. He hopes to hop off in June, although his new hydroplane is not yet ready.

"I realize the perils of such a flight, but I am confident that I can succeed," said the airman today. "I believe a successful round-the-world flight will advance the cause of aviation materially. I have made several trips to England and Germany to select motors and decide upon the type of plane. Also, I made the trip to Lisbon and the Azores to study conditions, for that will constitute the first leg of my route."

Franco expects to be accompanied by three companions—Captains Ruiz De Alda and Gallarza of the Spanish Royal Air force, and Pablo Rada, a civilian mechanic.

For the past year German engineers have been at work at Cadiz on Franco's new plane.

Health Association Meeting Postponed

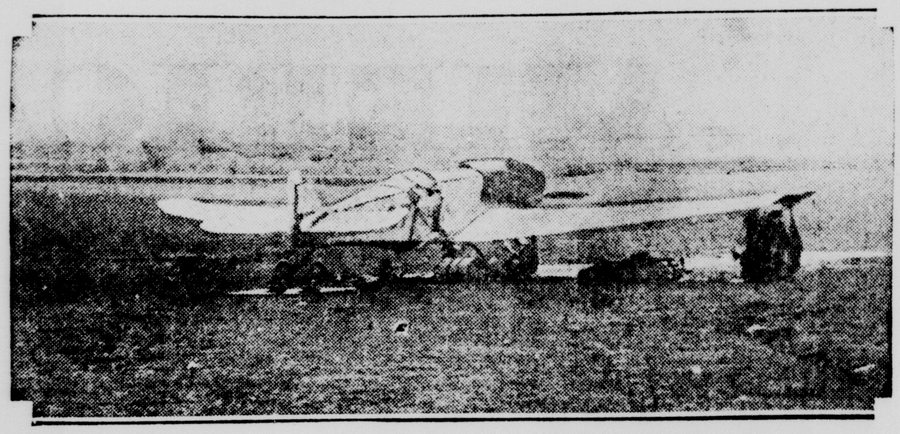

Meeting of the Lawrence County Health Association scheduled for Thursday evening, April 12, in the Y. W. C. A. auditorium has been postponed until Monday evening, April 16, at 7:30 o'clock on account of the visit of the famous flyer, Clarence D. Chamberlin, in the city on Thursday.

It is important that every member of the health association be present Monday evening for the reason that much business of importance will be up for consideration at that time and also because of the fact that the annual election of officers will take place on that evening.

How disheartening when you stop to help a pair of ankles change a tire and discover they belong to a grandmother.

Newspaper Plant At Huntingdon Is Damaged By Fire

Blast And Fire Does Considerable Damage To Newspaper Office Of Huntingdon News

(International News Service)

HUNTINGDON, Pa., April 11. — An explosion, followed by fire, today destroyed machinery in the press room of the Huntingdon Daily News, causing the paper to suspend publication temporarily.

Defective wiring was believed to have caused the blaze, but firemen and officials of the paper were unable to determine the cause of the small blast. The flames were quickly brought under control. No estimate of the damage has been made.

Shortly after the blast occurred, the flames spread to the mailing room, causing slight damage there. About 20 persons were employed in the press room.

Joseph F. Bittle, owner of the Daily News, announced that the paper would be published at the plant of the Tyrone Herald until repairs could be made to the Daily News equipment.

Knights Of Columbus To Hold Reception

Annual reception and dance of the Catholic Daughters of America and Knights of Columbus will be an event of Thursday evening, April 12, in the Palais Royale hall on Neshannock avenue. It is for the members of these organizations and their families, and promises to be one of the outstanding social events of the season. Excellent music will be provided for the occasion.

This evening a regular meeting of St. Mary's Council No. 512 Knights of Columbus will be held in the K. of C. Home. A number of matters of importance will be up for consideration, including reports from the membership committee.

Mantle Of Secrecy Over Oil Leases

Ex-Secretary Fall Sent Out Warnings To Subordinates Against Publicity

By GEORGE E. DURNO
International News Service Staff Correspondent

WASHINGTON, April 11.—A mantle of secrecy and silence hung heavily over the leasing of the Teapot Dome Naval Oil Reserve to Harry F. Sinclair, the government developed today in the oil man's trial for criminal conspiracy to defraud the nation of that land.

So great was the desire of the ex-Secretary of Interior or Albert B. Fall, who negotiated the lease, to make sure that no inkling thereof leaked to the public that six full days after the deal had been consummated he caused a memorandum to be circulated among his subordinates warning against publicity "of any kind" in connection with the oil reserves.

This was developed in the course of the examination of Assistant Secretary of Interior E. C. Finney, who identified the memorandum.

Fall, co-defendant with Sinclair, is charged with having taken a $233,000 bribe to put over the lease. He is too ill, however, to stand trial.

SCHUYLKILL COUNTY JURIST IS DEAD, IS STRICKEN SUDDENLY

(International News Service)

POTTSVILLE, Pa., April 11.—Judge C. A. Whitehouse, 46, of the Schuylkill county common pleas court died suddenly at his home here today.

Judge Whitehouse was elected last November for a term of ten years. He served six years in the legislature from the Pottsville district. He is survived by his widow and two children.

Evans Responsible For Carnegie Riot, Witness Declares

Witness At Klan Suit Says Imperial Wizard Ordered March At Carnegie, Pa.

By GEORGE L. CAREY
International News Service Staff Correspondent

PITTSBURGH, April 11.—Hiram Wesley Evans, imperial wizard of the Ku Klux Klan, was directly responsible for the riots at Carnegie, Pa., in 1923 in which one klansman was killed, N. C. Hogue of Swissvale, former kleagle of the order, charged in federal court here today.

Despite the fact that Carnegie officials had refused the klansmen a permit to parade, Sam Rich, klan leader, gave the order to march, Hogue said, saying that "Evans had ordered it."

Hogue said he had conferred with Rich, Pennsylvania grand dragon, two or three times a week prior to the riot and had been told to "be prepared for trouble. Conferences with klan officials were held in Pittsburgh, and the men were ordered to be ready for any emergency.

Swerving abruptly from the Carnegie riot, counsel for the five ousted klansmen being sued for $500,000 by the klan, called L. E. Landman, an Oklahoman, to the stand. Landman told of seeing two hat salesmen whipped by klansmen near Tulsa for alleged advances to girls. He said that the men were compelled to whip each other and were also beaten by the klansmen.

Lone Bandit Stages Big Train Robbery

(International News Service)

RED BLUFF, Cal., April 11.—A lone bandit held up the Shasta Limited, crack Southern Pacific flyer, and robbed a score of passengers of money and jewelry today.

Boarding the train here the bandit went through the Pullmans, flashed a gun on occupents of berths along the curtained cars, and forced them to surrender money and valuables.

He swung off the last car as the train whirled into the Redding yards.

By "tolerance" people mean acceptance of their standards, and that's all a tyrant asks.

Says Knight Riders Had Ammunition

By GEORGE L. CAREY.
International News Service Staff Correspondent

PITTSBURGH April 11.—The Knight Riders, a branch of the Ku Klux Klan had thousands of rounds of rifle and pistol ammunition stored in caves and barns "for bombings and shootings" J. R. Ramsey of Dayton former Klan investigator testified today in federal court here in Klan's $500,000 suit against five ousted members.

Ramsey who yesterday said the Knight riders bombed an Ohio church was questioned concerning the Klan's political activities in Ohio. Van A. Barrickman, defense council sought to show that the Klan was instrumental in shaping political policy in that state but was blocked by Klan counsel. Ramsey said however that the Klan was active in obtaining political jobs.

Ramsey said his work as Klan investigator was "to gather information on officials of the state and federal govement."

"This was to be used in controlling them in case we needed something against them" he said.

Feeling reached a climax among spectators when a man leaped to his feet in the courtroom and shouted "that's a lie."

The outbreak came while Dr. Chas. S. Hunter of Verona, one of the defendants was on the stand. Hunter had said that William Hohman of Pittsburgh, was present at the Klan trial of Barickman. The man was ejected.

TRACES HISTORY OF OIL LEASING OF TEAPOT DOME

(Continued From Page One)

a third share therein actually was worth the money.

Fall's son-in-law has failed thus far also to explain why no receipt was given or asked at the time of the bond transfer, or why Sinclair's third interest was not made out in his name.

The defense has a number of questions designed to offset this matter.

Having completed the establishment of the Liberty bond transaction, Roberts then reverted to the beginning of the oil negotiations and started the task of revealing to the jury what led up to the leasing of Teapot Dome, first, he introduced in evidence a multitude of letters, telegrams and government files this was tedious work, as the defense examined each document closely, objecting to some.

A telegram revealed that Sinclair and an attorney, the late J. W. Zevely, visited Fall at his new Mexico ranch Christmas week, 1921. Apology was made for intruding on the secretary's holiday, but it was explained the business "was urgent." The "business" in question was the first proposal to lease the naval oil reserve.

On February 23, 1922, Sinclair made a formal offer to Fall for the reserve, agreeing to supply the navy with fuel oil in storage and to build a 1,000 mile, $18,000,000 pipe line to the Atlantic coast in exchange for the privilege of working the field.

Five days later, G. T. Stanford, Sinclair lawyer who was called to the stand, testified, Sinclair organized the Mammoth Oil company to handle the expected lease. A million shares of stock, no par value were issued, and later an additional 1,005,000.

Fisher Spurns Receptions On Proposed Tour

(International News Service)

HARRISBURG, April 11.—On the tour of inspection which Governor John S. Fisher will make next week of state institutions he will not be able to receive delegations or committees of any kind it was announced today at the executive offices. A number of invitations for public receptions already have been received but were declined because of the nature of the tour.

The governor will not follow any fixed itinerary but will apportion the time during the week according to the requirements of the various places which he will visit.

Fisher In No Hurry To Make Reply To Senator's Letter

(International News Service)

HARRISBURG, April 11.—Governor John S. Fisher today seemed in no hurry to reply to the letter received Monday in which he was asked to appear as a witness before the special senate committee which is investigating conditions in the bituminous fields.

It is generally believed about the capitol that the governor will not comply with the request made by the committee but will instead send a letter outlining his position in regard to appearance before a senate committee.

The letter asking his appearance and bearing the signature of Senator James Watson, chairman of the senate interstate commerce committee, arrived here Monday. It was in reply to one sent by the governor on March 21 in which he asked not only that the scope of the proposed inquiry be outlined but that his status before the committee also be explained.

THROWS AWAY OLD BAG, LATER FINDS VALUABLE RING GONE

(International News Service)

PHILADELPHIA, April 11.—Mrs. William Allison of Haverford today asked police to search for an old silk handbag she threw away last Monday which she later learned contained a $3,500 diamond ring.

Mrs. Allison said she bought a new handbag then threw the old bag into the street. Later she missed the ring and then remembered she had placed it in the old bag.

Trains Collide In France, Fear Fifty Killed

(International News Service)

PARIS, April 11.—It is feared that 50 persons were killed in a collision between a special train bound for the Engie race course and a Chantilly local just outside of the Gare Du Nord station this afternoon. Thirty persons were injured. It was not known at the time of the disaster whether there were any foreigners on either train.

Clean-up Rooms At State Capitol

Legislative Halls At Harrisburg Given Real Renovation

(From News Bureau, State Capital)

HARRISBURG, April 11.—When the 1929 session of the General Assembly convenes next January the members will meet in rooms that have had their first real housecleaning in years. At the present time a corps of workers are preparing the hall of the House for the cleaning forces.

A heavy timber scaffold is being constructed so that the ceiling and walls of the chamber can be cleaned of the dust and dirt that have accumulated there since the building was completed. The gold leaf decorations on the ceiling will have a brighter appearance when the cleaners finish their task.

The old red carpet has been removed, and by fall a new one will be placed on the floor. Other furnishing of the hall will receive attention.

The cleaners are not neglecting the Senate side of the capitol. This, too, will be thoroughly cleaned. The last session of the ligislature made an appropriation for the new carpets and the money for the rest of the job is coming from the budget of the Department of Property and Supplies.

Since the present administration took hold of affairs many offices and departments have been given a housecleaning. The walls have been repainted. Construction operations this year will not permit the full beauty of the capitol ground to be appreciated by the summer tourists.

Special Program For Blind People

Lions Are Arranging For Event On Evening Of April 28

For the benefit of all blind people in the United States, the Lions International is broadcasting a program through over 40 stations on the evening of April 28, announces B. K. Thacker, chairman of the entertainment committee for the local Lions club. Blind people of Lawrence county will have a chance to hear the program through ths courtesy of the New Castle Lions Club.

In the First Christian church, New Castle, a radio will be installed, so that the blind can assemble there. The Lions are sending invitations to all of the blind, and in most cases, will call for them in cars and afterwards take them to their homes. The program, lasting for an hour, is scheduled to start at ten o'clock, Eastern Standard Time.

Artists who will entertain the blind on the evening of the 28th will include Harold Bauer, nationally known pianist, Anna Case of the Metropolitan Opera Company, Edwin Grasse, violinist, Milt Gross, humorist and creator of "Nize Baby," and John B. Kennedy, an assistant editor on the staff of Collier's Weekly.

Stations through which these artists can be heard will include WEAF, WCAE, WGY, WTAM, WGN, and KYW, all of which can be gotten by New Castle radio owners.

The general public is also invited to the First Christian church. No admission charges will be made.

AMERICA is now a two-car country

TODAY the American family is discovering that a second or third car is not only a convenience but an economy.

The schedule of the modern mother and her children is filled full. Days are rich in opportunity. In removing the barriers of distance, in enlarging the area of social contacts, in making it easy to meet the manifold engagements of the busy days, the family car does duty fully as important as the car which drives off in the morning to the office or the shop.

There are two ways to enjoy two-car ownership. Either buy a used car from a General Motors dealer or keep your present car, instead of trading it in, when you buy your new General Motors car.

Whichever plan you follow, you will be sure of satisfaction if you buy from a dealer handling Cadillac, LaSalle, Buick, Oakland, Oldsmobile, Pontiac or Chevrolet. These are General Motors dealers, selected for character, stability and service. Buy from them with confidence; and simplify your purchase if you choose, through the convenient payments of the GMAC Plan.

Glee Club Girls Will Make Tour

(Special To The News)

NEW WILMINGTON, Pa., April 11.—Announcement was made today by Westminster's music director, Alan B. Davis that the Girls' Glee club will make a spring tour starting on April 23.

The schedule includes engagements at Youngstown, Warren and Ellwood City. The trips will be made from New Wilmington on motor busses on the dates of the engagements and the club will return each night after the presentations.

Arrangements have been made under the supervision of A. A. McDonald graduate manager of student activities. The entire Girls Glee club will be taken on the trips which means a more satisfactory arrangements than in former years when the club had to be limited due to over night arrangements and the consequent high expenses involved.

NOW "FLAVOR ZONE" COOKING
without touching or looking

The outside of a roast—browned to a tender crackling sweetness—that's where the flavor is developed. When this zone is browned first, and in just the proper manner, the rich flavor seeps all through the meat as it continues to cook, so that it comes to the table delicious, tempting, savory.

This browning operation used to be quite a trick. It required preheating of the oven or pan and much care and attention before the roast was ready to cook. Cooking wasn't so easy either. The heat had to be watched and regulated and frequent basting was necessary.

Now all that is done away with. The new Westinghouse Automatic Range performs both the browning and the cooking operations *automatically*. It gives you inimitable FLAVOR ZONE cooking—*without touching or looking.*

With the Westinghouse Automatic Range you place a roast in the oven and never think of it again until you're ready to serve it.

Automatically, the heat is turned on; *automatically,* the oven is brought to a browning temperature and held there just long enough to seal in the rich flavor and juices; then *automatically,* the current is cut off and the temperature gradually lowers to finish the cooking and draw the flavor into the meat.

No other range, either fuel or electric, cooks the Westinghouse way—the FLAVOR ZONE way—performing first the browning operation and then the cooking operation under complete *automatic* control.

It's easier to cook on a Westinghouse—only two simple adjustments when you put the meat, and other foods if you like, in the oven. Then you close the door and never open it again until dinner time, never touch the oven or look at the roast.

Decide now to enjoy this new and better cooking method. Call or write for our booklet *"The Story of Flavor Zone Cooking"*—or better still—come in for a demonstration.

News Of Activities At Shenango School

Mr. Book entertained the boys basketball team at his home near Harlansburg Saturday evening. A chicken dinner was expected but instead a banquet was served. The only marring note was the lack of capacity for all the good things. This was especially true of Earl Collins. In the eating marathon James Lawrence and Joe Shaftic ran a dead heat but Richard Dominick claimed the race on a foul. During the course of the evening Mr. Johnston, coach of the team was presented with a fine white gold watch chain. Arthur McComb of Aspinwall and George Book of State College were special guests of the evening.

Last Friday a number of the high school boys gathered at the school house to prepare the grounds for track, because the grounds are to be graded this spring only a hundred-yard straightway was made. Two jumping pits were dug and rings for the shot and discus prepared. Through the courtesy of Mr. Clark the use of his truck was had for the day. The following boys were present: James Lawrence Eli Lepisto, Carl Lepisto, Paul Lutton, Charles Lutton, Howard Boston, Oris Cone, Geo. Brady, Donald Hupe, James Cowmeadow, Robert Long, Clarence Clark, Jack Walker, Fred Gemmil, Joe Shaftic, Jack Mentzer.

The cast for the high school play "The Cousin From Coon Ridge" which is to be presented Friday night is as follows:

Theodore Hampton—Richard Domenick.
Eileen Burgess—Viola Schiedemantle.
Anita Thorne—Opal George.
Besse Deane—Shirley Lawrence.
Mrs. Winifred Watson—Dorothy Downs.
"Spike" Sloan—Howard Boston.
Grover Green—Eli Lepisto.
Betty McCarroll—Lois Fombell.
Gene Campbell—Jack Walker.
A Tramp—John Sorbo.

Because dress rehearsal for the high school play is to be held Thursday evening the men's community night will be held on Wednesday evening.

The eight grade girls won the class league championship by a decisive victory over the ninth grade girls.

The 10th grade boys won the class league championship by their victory over the eighth grade. The eighth grade boys fought hard but the superior height and speed of the tenth grade was too much for them. The work of George Body for the tenth grade was outstanding while Thomas DeLanzio and David Weir were towers of defense for the eighth grade.

Miss Alcorn and Miss Cowmeadow entertained the members of the boys and girls basketball teams Friday night. A delightful time was had by all playing games after which a lunch was served. The girls team presented Miss Alcorn with a gold basketball and chain in appreciation of her services as coach.

A number of the teachers have been using the slide projector recently purchased by the school. Miss Meechem has found it of special value in the teaching of health.

Basketball chapel was held Thursday afternoon. Mr. Book presented the letters to those players who had taken part in sufficient number of quarters. The players receiving letters responded with speeches which were a credit to those making them. Letters were presented to the following girls: Lois Fombell, Shirley Lawrence, Lois Myers, Helen Cotton, Mary Yoho, Martha Swisher, Dorothy Downs, Margaret Long, Sue Kopsky and Opal George.

The boys to receive letters were Joe Shaftic, Jas. Lawrence, Clarence Cark, Jack Walker, Richard Domenick, Albert Frengel, John Sorbo and Howard Boston.

Hay Fever Very Hard To Dodge

(International News Service)

NEW YORK, April 11.—The only sure escape for persons susceptible to hay fever is a trip to the middle of the ocean, a climb to the top of a tall mountain or an extended tour in the air at an altitude of 4,000 feet. The New York Post Graduate and St. Mark's hospitals, in announcing Tuesday that they had opened immunization clinics for hay fever, pointed out that the fever was in the air and is hard to dodge for those who are not immune to it.

Why not have a scientist on each submarine to make notes on the way rats feel when the trap is lowered into the water?

CLUB WOMEN AT WORK

Conducted By The Woman's Club Of New Castle

The Department of American Citizenship in the General Federation of Women's Clubs is asking the clubs all over the country to cooperate in getting the women to vote.

The Citizenship Department of the Montana Federation has responded to this call by making a survey of the clubs' membership. Each member and their families are interviewed with respect to their voting.

The Colorado women enlisted the aid of the churches and schools in putting on their campaign and were met with such success that next year the governor has promised to officially proclaim Citizenship Week.

Utah has great cause for gratification as at the last election one per cent more women voted than men. An organized effort was made on the part of the club women to see that their members voted. The result was 65 per cent of the women of the state registered and voted, and 64 per cent of the men.

The Department of Citizenship is sponsoring the celebration of July 4th as a Community Citizenship Day. It is none too early to plan for such a day. General headquarters upon, application will supply copies of "Pageant of Citizenship" by Albion Fellows Bacon written for and dedicated to Mrs. Percy V. Pennybacker. There is also a supplementary leaflet of songs with music.

Club women interested in legislation will be glad to know the Ketcham Bill with the federation amendment passed the House. The Senate has yet to act on it. This bill provides for the further development of agricultural extension work and contains the General Federation amendment which provides that at least 80 per cent of all appropriations under the act shall be utilized for salaries of extension agents in counties of the several states to further develop the co-operative extension system in agriculture and home economics with men, women, boys and girls, and that the agents have a fair and just proportion of men and women.

The McNary-Woodruff bill has passed both houses. It must yet go before a conference committee of the House and Senate and then to the President for signature. This bill carries an appropriation of $40,000,000, available in annual appropriation, the last to be in 1936, to enable any state to co-operate with any other state or states or with the United States for the protection of the watersheds of navigable streams and to appoint a commission for the acquisition of lands for the purpose of conserving the navigability of navigable rivers.

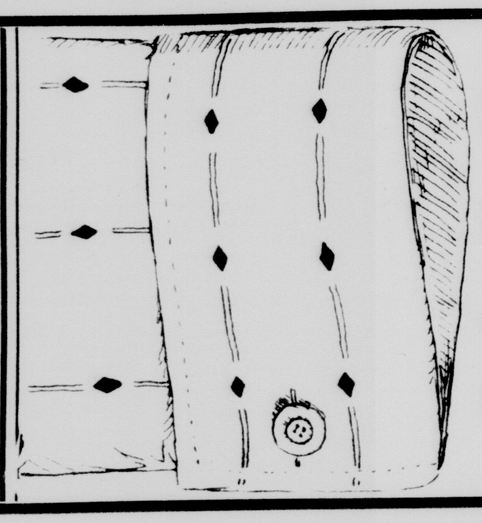

The General Federation has always supported the movement for adherence to the Permanent Court of International Justice and is in sympathy with the following resolution offered by Senator Gillette: "That the Senate of the United States respectfully suggests to the President the advisability of a further exchange of views with the signatory states in order to establish whether the differences between the United States and the signatory states can be satisfactorily adjusted."

The General Federation favors legislation to control the bill board menace and welcomes the interest shown in bill board legislation. Taxation of bill boards is entirely just as the value of the bill board comes entirely from the improved highway. Autos, drivers and gasoline are taxed. Why not bill boards?

The farmers of Wankesha county, Wisconsin, displayed at their county grain and stock exhibition, a huge pile of bill boards removed from their property. "Save the beauty of Wisconsin" is the slogan in that state.

MEMBER QUALITY BAKERS AMERICA By Invitation Only

This Mark Stands for Bread Goodness

One of the unswerving principles of the 90 members of Quality Bakers of America—we are proud to be a member—is: **If we can make a better loaf of bread we will do so.**

In the five years that Quality Bakers of America have been co-operating to make the best bread possible and to give the public uniform quality and satisfactory service, we have made very definite progress.

We know we are better bakers since our affiliation with the Quality Bakers of America, and the chances are we will be better bakers five years from now, although **the percentage of improvement must necessarily be very small.**

All tests made of our Quality Bread show that the average among all of us members of Quality Bakers of America runs from 95 to 99%, which is a very high average—yet we are ambitious to attain an average of 99 9-10% which is about as close to perfection as anybody may hope to get.

But say, folks, to reach 99 9-10% from our minimum average of 95%, is a very serious task. You know it is and so do we—but that will not make us falter in our purpose to do better if it is humanly possible to do so.

* * *

Another of the firmly established principles of the 90 Quality Bakers of America is: **Not how cheap but how good we can make our bread.**

This means, of course, that we must put into every loaf every bit of quality that we possibly can, and yet have it go to the public at a price that the people can afford to pay for it. We know that we cannot compete with some prices that lure the people too often, we are sorry to say—because we will not under any circumstances lower quality.

The only language we Quality Bakers of America know how to speak is that which tells the truth about our Quality Bread—and we let it go at that, for we find that the public likes frankness and will buy any good product that makes good consistently.

There is no stability, please don't forget, to a wavering price platform. It can never compete for long with established quality and reliable service. The public has a keener sense of values today than it ever had. It is better able to know the difference between the genuine and the sham in the goods they buy.

* * *

The vital thing in a bakery is its production facilities.

Everything starts in the plant. If that falls down in any particular, everything else falls down.

And the human element, please take notice, counts for a great deal in production. It is more important even than machinery. Machinery, wonderful as it is, as the result of man's ingenuity, has nevertheless got to have the understanding, the direction and the constant supervision of the human mind.

And wholly apart from all other elements the biggest thing of all in our opinion, is the pride of the workers in their jobs. This pride is the keynote of flawless production, and the appreciation of the public.

* * *

In all respects that will conduce to consistent quality, we pledge ourselves to give you in our Twin bread everything that will keep you a regular customer and will influence you perhaps to say a good word for it and us when ever the spirit moves you—for we value your good-will more than anything else.

Operetta To Be Given By School

Funds From The Play Will Be Used To Furnish The Gymnasium Of Lincoln School

ELLWOOD CITY, April 11.—Students of the Lincoln school will present an operetta Friday evening in the gymnasium for the purpose of raising funds to furnish that room. The operetta is in the nature of a two-act play, and rehearsals have been in progress for some time to insure success of the venture.

The play in synopsis is as follows: The Honorable James Woodbine, from the eleventh district has transformed his an cestral home in Arcady, a small New England village, into an extensive and model farm with a scientific farmer, Ebenezer Riggs as manager. The play opens with Woodbine and his daughter expected home for old home week. The action centers chiefly about one farm hand named Jack, who has come to the country incognito for the purpose of getting healthy recreation and finding a simple country girl who will care for him alone and not his wealth and position. Because of this mystery, he is regarded as a suspicious personage by Bean, the constable, and is saved from further trouble by Prudence Brier, the postmistriss of Arcady.

Going any further would give the plot away entirely, but after many misunderstandings Jack finds the girl of his dreams, and the little play ends most happily.

Officers Arrest Pair With Liquor

Violation Of Snyder Act Is Charged By Chief Of Police Horner

Two men giving the names of C. W. Crawford and G. B. LaClair, arrested last night on Neshannock avenue by Lieutenant Hillers, Detective J. Young and Officers Kennedy and Samuels, were today taken before Alderman Green, where they were charged with violation of the Snyder Act by Chief of Police C. C. Horner. They waived a hearing for court and late this afternoon were still engaged in an effort to secure bail for their release until the case comes up at the June term of court.

Lieutenant Hillers was on Neshannock avenue, near the Nash garage, when he saw a man take a bottle of liquor from a handbag out of the rear of a car bearing Ohio licenses A34-636. The car was in front of 370 Neshannock avenue.

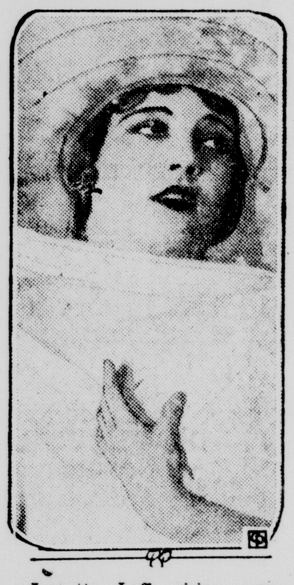

Lieutenant Hillers called the police department and was soon joined by Detective John Young, and Officers Kennedy and Samuels. As the officers were examining the car, they saw G. B. LaClair looking out of an upstairs window at 370 Neshannock avenue. They motioned for him to come out, which he did, and he stated that the car belonged to him. The suitcase and traveling bag in the machine, he said belonged to C. W. Crawford, who was stopping with him. Crawford opened up the traveling bag and a pint of liquor was found in it.

The men and the suitcase and traveling bag were brought to the police station. There the suitcase was opened and it yielded a quart of liquor. Crawford's left pant leg was noticed to be bulging and on examination, it was found that he had a flash of liquor there. He admitted to the ownership of all the liquor.

Officers then went to the LaClair place on Neshannock avenue and on search, found a quart mason jar about one-half full of liquor, in a cupboard of the place.

The charges made today were the result

Many Enjoy Safety Rally Last Evening

Local Railroaders Attend Big Event At Youngstown, Ohio

Local railroaders with their families and friends to the number of over 100 attended the annual safety rally last night at the Stambaugh Auditorium in Youngstown, and according to all reports it was a most enjoyable event.

The safety rally which is given each year under the auspices of the various railroads of Youngstown is looked upon as one of the big events of the year. Over 2,500 were in attendance at the meeting last night.

The program was in charge of F. H. Babcock, general chairman of the affair who gave the introductory speech and the response was given by Judge Geo. H. Gessner of Youngstown.

The special speaker of the evening was Dr. J. W. LeSeur, special representative of P. W. Crowley, president of the New York Central Lines. Music for the evening was furnished by the Male Quartet of the Erie Railroad, the Police Band of the P. and L. E. railroad and the Collegian Serenaders. The climax of the program was the showing of the picture "The Fair of the Iron Horse" produced by the B. and O. railroad. The program terminated in a dance at the Stambaugh ball room.

The different railroads participating in the safety rally were the Baltimore and Ohio, Erie, Pennsylvania, New York Central, Pittsburgh and Lake Erie and Eastern railroads.

Local members of the committee were E. J. Wilson Divisional safety agent for the Pennsylvania who acted as chairman of the program committee and also was a member of the Finance committee F. S. Patterson, district claim agent of the Pennsylvania acted on the publicity committee, R. D. Rhodes, claim agent of the Pennsylvania and J. W. Riggins, supervisor of tracks on the B. and O. were members of the prize committee.

Young People Of Wilmington District Have Good Meeting

"GET IT AT McKEE'S"

TEN YEARS THIS MAN SUFFERED

Had Not Been Free From Severe Headache For Two Years

Catarrh Had Affected His Head, Nose and Throat. World's Tonic Brings Relief

The remarkable results being obtained from World's Tonic, a systemic treatment for catarrh, is further confirmed in the case of James Thomas of Farrell, Pa., who told the World's Tonic druggists this story:

"I suffered from Catarrh since I was fourteen years of age, and I felt like shouting when, after the use of four bottles of World's Tonic I realized that at last I had found a medicine that was really doing me some good. I am now a great booster of World's Tonic, and I have told many of my friends what great relief World's Tonic brought me in such a short time. My throat was dry and my nose was stopped up and very raw. The slightest change in the weather would cause me to contract cold. I hadn't been free from the headache for more than two years. My head felt stopped up just like I had a severe cold all the time. This heavy, dull feeling in the front part of my head for so long certainly did make me try many different kinds of medicines, but I can truthfully state that World's Tonic has given me more relief than anything I have found. Since using the third bottle I have had no headache, my nose and throat are getting better every day and I feel the improvement in my general health has been excellent."

Most of the so-called stomach troubles are due almost entirely to catarrhal inflammation. The constant coughing up of mucus, dull throbbing headaches, frequent sneezing, watery eyes, pains in the stomach and over the kidneys, loss of appetite, no ambition, depletion of spirit and a persistent contracting of hard colds are characteristic symptoms of this trouble, from which many in cities like New Castle suffer.

World's Tonic, the systemic treatment for Catarrh, is wonderfully effective in this disease. It almost immediately gives relief from the dropping of mucus and sweetens the offensive breath caused by Catarrh.

World's Tonic is especially introduced in New Castle at Paisley's, McKee's Kut Rate Store, Smith's, Eckerd's of New Castle, Inc. and for sale at all other good druggists (246).

350 Consecutive Appearances

Young actress discovers how to be on the job every day

Broadway Favorite

SHE USED to lose one night at least every month from her work. Valuable time that lost money for the show.

But for over a year now she's been on the job every single day, for 350 consecutive appearances in the record-breaking run of a Broadway hit. What made the difference? Such a simple hygiene habit that it's surprising more women haven't found it out.

She takes a spoonful of Nujol regularly for a few days beforehand, each month. Nujol regulates the intestinal functions of the body at times when they're apt to be upset. Helps to keep normal, even under abnormal conditions. Cleanses the whole system.

Why don't you try Nujol, as this woman did? Take it for the next three months. You'll be amazed at the difference it makes.

Nujol can't possibly hurt you. For it contains absolutely no drugs or medicine.

It was perfected by the Nujol Laboratories of the Standard Oil Company (New Jersey). Be sure you get the genuine.

United Brethern Church Conference To Close Tonight

(International News Service)

JOHNSTOWN, Pa., April 11.—The Allegheny conference of the United Brethern church will close its two-day session here tonight.

More than 100 ministers and laymen are attending the conference which is to be featured today by addresses delivered by several noted clerics. The speakers were to be Dr. E. B. Learish, Phfladelphia; Rev. Dr. F. W. Davis, Scottdale; Rev. E. C. Weaver, Wilkinsburg; Rev. George E. Heiss, York, field secretary of the Bonebrake Theological Seminary at Dayton, O.; Hon. Elmer Henderson of Trafford, and Rev. E. W. Weaver, Wilkinsburg.

Rev. Dr. W. S. Wilson, superintendent of the Allegheny Conference, presided at the sessions. Yesterday addresses were made by Dr. S. S. Hough, Dayton, O.; Rev. L. W. Stahl, Greensburg, and Rev. John Watson, of Tyrone.

FOURTEEN FLEE PITTSBURGH FIRE

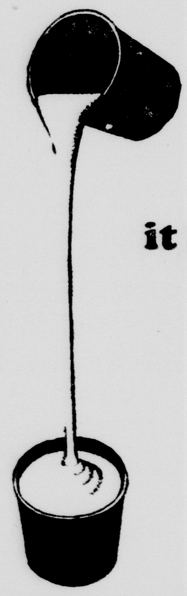

(International News Service)

PITTSBURGH, April 11.—Fire which swept two frame dwellings here early today forced 14 persons including ten children from their homes.

Starting in the home of Joseph D. Rozauskis the blaze quickly spread to the Michael Bruisco home. Origin of the fire was not determined officials said. Damage was estimated at $500.

The last two might be called Mr. Coolidge's declining years.

New and improved form of White Lead

NOW pure white lead that can be made ready for the brush at the rate of a gallon of paint per minute. And a smooth, glossy paint of wonderful brushing and hiding qualities.

Carter *Soft Paste* White Lead has been welcomed by painters everywhere because it has overcome their only objection to using pure white lead . . . the time required to "break it up." With Carter Soft Paste, that job has been done for the painter. When he opens the package it is ready to pour into the paint pot for thinning and tinting. Put up in convenient sized, easily opened packages, the right quantity can be sent to any job.

Painters who have been accustomed to thinning 100 pounds of Carter Heavy Paste White Lead with 4 gallons of oil for finishing coats (half oil and half turps for undercoats) will get paint of same weight and consistency by thinning Carter Soft Paste with linseed oil measure for measure. The greater convenience of soft paste costs the painter nothing.

French Fliers Resume Flight

Costes And LeBrix Leave Calcutta Bound For Delhi, India, Is Reported

HOPE TO REACH LE BOURGET FIELD

(International News Service)

LONDON, April 11.—Lieutenant Dieudonne Costes and Lieut. Commander Joseph Lebrix, the French "Good Will" fliers who are girdling the globe by easy stages, hopped off from Calcutta, India at 2:30 o'clock this morning (Indian Standard Time) on the next stage of their journey, according to a Central News dispatch from that city.

The fliers will eventually end their journey at Le Bourget flying field, Paris, from whence they started. They are now believed to be heading for Delhi, India.

With the Junkers monoplane Bremen still weather bound at the Baldonnel Airdrome, near Dublin, and the French fliers making steady progress towards paris where a new plane awaits them, the prospects for a Franco-German race across the Atlantic to America seemed brighter today.

According to reports from Paris, Costes and Lebrix may attempt to beat the German fliers across the Atlantic if the Bremen is still at Dublin when they reach Paris.

Steamer Crippled, Is Rescued By Tugs

Five Hundred Passengers On Fall River Line Steamer Unaware Of Trouble

(International News Service)

NEW YORK, April 11. The Sound steamer Plymouth of the Fall River line was crippled off the Battery today when the main shaft of her port paddle wheel cracked.

Distress whistles called five tug boats and a fire boat to her assistance. The rescue craft made their lines fast and towed the helpless steamer to her berth at pier 14, North River, where she docked an hour and a half later.

Captain Robert M. Robinson said the five hundred passengers, coming from Fall River and Boston, did not know there was anything wrong beyond a delay.

Mercer County Needs Potatoes For Seeding

Only Two Car Loads Have Been Obtained From Michigan By Farmers

MERCER, Pa., April 11.—With a need of six but two car loads of seed potatoes having been obtained from Petoska county Mich., by Mercer county growers.

The "spuds" are those raised from disease free seed.

A failure of the crop there last fall accounts for the reduced number of potatoes shipped to the Mercer county growers who have been buying there for the past five years.

Stomach Troubles Are Due to Acidity

Tells of Pleasant Home Treatment to Bring Swift Relief.

So-called Stomach Troubles—indigestion, dyspepsia, gas, sourness, etc., are, in probably nine cases out of ten, evidence of "too much acid in the stomach" souring the food, causing the formation of gas and starting acid indigestion.

Gas distends the stomach and causes a full, oppressive burning feeling known as heartburn, while the acid irritates and inflames the delicate stomach lining. Get rid of Gas and Acidity, and you get rid of Indigestion.

To stop or prevent the sourness and gas, to neutralize the stomach acids and keep the stomach sweet and free from Indigestion, a teaspoonful or four tablets of Bisurated Magnesia should be taken in a little water after eating or whenever gas, sourness, pain or acidity is felt. This quickly sweetens the stomach, neutralizes the acidity, stops the pain and is harmless and inexpensive to use.

Bisurated Magnesia, powder or tablets only, can be obtained from any drug store and its daily use keeps the stomach in fine condition, enabling it to do its work without the aid of artificial digestants.

Officials Are Given Sentences For Bank Crash

(International News Service)

PITTSBURGH, April 11.—Pleading guilty to charges of fraud in connection with the failure of the Pittsburgh Deposit and Title Company after a transaction with the Central Homes Company, a realty firm, the executive officer of each firm was sentenced to a prison term in county criminal court here Tuesday.

Albert C. Leslie, 57, president of the bank, was sentenced to serve from three to six years in the Allegheny county jail and fined $1,500.

J. C. Umstead, general manager of the realty concern, was sentenced to serve from four to eight months in jail.

The bank crashed after an alleged fraudulent mortgage transaction amounting to $296,000 with the Central Homes Company.

Determined To Place Flood Cost On Government

(International News Service)

WASHINGTON, April 11.—President Coolidge's continued attacks on the Jones-Reid Flood Control bill apparently have failed to shake the determination of backers of the measure to place all the cost on the Federal government.

The announcement of Rep. Madden (R) of Illinois that he would propose amendments requiring the states to provide flood-ways met with instant opposition from the "government-pay-all" advocates.

Madden was called from a sick-bed by President Coolidge to organize a fight against the bill. He also proposed to amend the bill to give the President veto authority over the project.

The cost of flood-ways has been variously estimated from $91,000,000 by the Mississippi River Flood Commission to $429,000,000 by army engineers, the latter including cost of relocating railroad property.

The flood control battle in the house has been tentatively set for next week by the house rules committee.

New York Attorney Shooting Victim, Is Involved In Probe

Name Of Dallet H. Wilson Enters Senate Committee Oil Bond Probe

(International News Service)

WASHINGTON, April 11.—The name of Dallet H. Wilson, New York, attorney, who was shot and wounded by his wife last week, was brought into the senate public lands committee's investigation of the Continental oil bonds today.

Senator Nye, R., of North Dakota, chairman, said the committee had "heard" that Wilson had some knowledge of the disposition of the bonds, but he indicated he did not think the information of sufficient importance to subpoena Wilson. Wilson is reported to be a close friend of Thomas W. Miller, former alien property custodian, now under prison sentence for conspiracy in the American Metals case.

"The committee will have to have more definite information before calling Wilson," said Nye. "It seems Wilson was mixed in the bond affairs of the Republican party to some extent, but we have no information that he ever handled any of the Continental bonds."

Congress Advocates Of Good Roads, Open Legislative Battle

(International News Service)

WASHINGTON, April 11.—Alarmed by the possibility of defeat of legislation extending the period of federal aid for highway construction, good roads advocates in congress today locked horns in a battle with the treasury department and the budget bureau.

Sen. Oddie, R., of Nevada charged that an "unseen hand" is holding up the good roads legislation, while budget Director Lord declared that federal aid will "conflict with the financial program of the president" unless the 3 per cent tax on new automobiles is retained.

In the face of the hostile attitude of the budget bureau and Secretary of the Treasury Mellon, the house roads committee reported out a bill providing for $75,000,000 federal aid in each of the years 1930 and 1931.

A similar bill has been reported to the senate, but Sen. Oddie declared that he is unable to get action on it.

"There is some influence holding up this legislation with an idea of killing federal and—I won't say who is responsible," said Sen. Oddie.

"It is a quiet campaign but very effective. Already false rumors have been spread of a large unexpended balance in the treasury to match state aid for highway construction. All of this money had been obligated.

"I was informed by the bureau of the budget that new appropriations would conflict with the president's financial program unless the automobile purchase tax were retained.

Philadelphia Girl Wounded By Lover On Marriage Day

Enraged When Girl Refuses To Marry Him, Man Wounds Girl And Escapes

(International News Service)

PHILADELPHIA, April 11.—Shot in a jealous rage when she refused to listen to pleas to marry, Dorothy Elton, 18, is in a critical condition today in Northern Liberties hospital.

Police are seeking Victor Ponch, 26, a barber, for questioning in the shooting.

From information gathered from the girl's mother and neighbors, police learned that Ponch and Miss Elton were to have been married yesterday but that the girl failed to appear for the ceremony.

Ponch became enraged, police say, when a friend told him Miss Elton had married another man using Ponch's money to buy her bridal outfit. Police, however, could not confirm the report of her marriage to another man.

HIGH LIGHTS OF HISTORY

By J. Carroll Mansfield

The Story Of The "Cow Country"—Part I

BEFORE THE COMING OF THE WHITE MAN FROM EUROPE, THERE WERE NO DOMESTIC CATTLE ON THE NORTH AMERICAN CONTINENT. THE BISON, OR AMERICAN BUFFALO, HOWEVER, ROAMED OVER NEARLY ALL OF WHAT IS NOW THE UNITED STATES.

HOWEVER, THE SPANISH CONQUISTADORES BROUGHT EUROPEAN CATTLE TO MEXICO TO SUPPLY THEM WITH MEAT AND MILK WHILE ON THEIR MARCHES OF EXPLORATION AND CONQUEST.

THE NUMBER OF THESE IMPORTED ANIMALS INCREASED UNTIL THERE WERE VAST HERDS ON THE MEXICAN RANCHES, AND CATTLE RAISING BECAME AN IMPORTANT INDUSTRY IN THAT COUNTRY.

FROM TIME TO TIME, STEERS AND COWS STRAYED AWAY FROM THE HERDS AND, WANDERING NORTHWARD TO THE PLAINS OF TEXAS, BECAME WILD. FROM THESE "STRAYS" SPRANG A DISTINCT BREED OF CATTLE KNOWN AS THE "TEXAS LONGHORN".

Major League Baseball Season Opens Today

Look Forward To Great Year

Sixteen Teams Start Struggle For Supremacy In National Pastime

RECORD CROWDS ARE ANTICIPATED

(International News Service)

NEW YORK, April 11.—Approximately a quarter of a million rabid fans in eight major league cities scanned the heavens with anxious eyes today, left instructions to be telephoned to the office that they were violently ill, and forthwith departed for the park of their favorite baseball team in the best of health and spirits.

Enthusiasm was rampant, for today marks the official opening of the baseball season. A day, when even chronic tailenders look like champions to their loyal supporters, who have temporarily forgotten the disappointments of yesteryear.

The enthusiasm was fairly uproarious in Boston, where the astounded fans turned out in droves to marvel at the lowly Red Sox, who jumped to first place in the American League by defeating the Senators, 7 to 5, in yesterday's "false start" at Washington. The game was moved ahead one day in order to give the opening Presidential sanction.

On Hand Early

The usual parade and flag-raising ceremony will precede the start of each of the eight games today. Predictions of "overcast skies and possibly rain at night" in several of the eight cities failed to dampen the ardor of the fans, who began gathering at the gates of the various parks long before the gates were opened.

A double opening will be held in New York, with the Giants meeting the Boston Braves at the Polo grounds and the Brooklyn Robins facing the Phillies at Ebbets Field, Brooklyn. "Cloudy and warmer, with rain at night" was the weatherman's prediction.

Mayor James J. Walker will toss out the first ball at the Polo grounds and John H. McCooey, Brooklyn Democratic leader, will open the ceremonies at the Robins' park.

Fifty thousand fans were expected to crowd into the Polo grounds to watch the Giants perform against Roger Hornsby, their former idol, and his fellow Braves. A capacity crowd was considered certain at Ebbets Field, which seats only 30,000. The Robins finished their training season by thrashing the Yankees yesterday, 7 to 2, squaring the series.

The probable batteries for the two games are:

New York—Benton and Hogan; Boston—R. Smith and Taylor.

Brooklyn—Petty and Hargreaves; Philadelphia—Ring and Wilson.

Pirates at St. Louis

ST. LOUIS, Mo., April 11.—The Pittsburgh Pirates and the St. Louis Cardinals, pennant winner and runner-up for the 1927 baseball season, clash here today in the curtain raiser of the National League's 53rd race.

A bright sun appeared this morning and the weatherman predicted the day would be warm.

John A. Heydler, president of the National League, was scheduled to watch the first game here, accompanied by Mayor Victor Miller. Approximately 20,000 are expected to attend.

The probable batteries are Haines and O'Farrell for the Cardinals and Kremer and Smith for the Pirates.

Indians at Chicago

CHICAGO, April 11.—An old-fashioned parade will precede the opening of the baseball season here today. The popular White Sox club, under the leadership of Ray Schalk, will clash with the Cleveland Indians in the American League's official start-off here.

A clear, sunny day, with just enough zip in the air to make the fans step lively, was the contribution of the weatherman.

Thirty-five thousand fans are expected to sit in for the inaugural contest. Chief among the attractions will be Chalmer "Smilin Bill' Cissell, the new $123,000 addition to the Sox family.

Batteries were announced as Uhle and L. Sewell for Cleveland and Lyons and Berg for Chicago.

Twilight League To Have Meeting Thursday Night

The managers and officials of the Lawrence County Twilight League will meet at the Sporting Goods Store on Thursday night at 8:30 o'clock to adopt the playing schedule for the coming season, it was announced today.

The league this year will be composed of ten teams as follows: Edenburg, Hillsville, South Hills, West Pittsburg, National Radiator, Colored Stars, Ryantown, Lawrence Indies, Mahoning Billiards, Troop B, and Clifton Flats. All of the teams have handed in their franchise money.

It is very important that all managers and officials attend the meeting tomorrow night. The league season will likely get under way about the first Tuesday in May.

Rocco-Scarney Battle Tonight

Light-Heavyweights To Draw $8,000 "Gate", Reports State

ROCCO FAVORED TO WIN BATTLE

Emmett Rocco, light-heavyweight of Ellwood City returns to the ring tonight with Young Scarney of Niles, as his opponent at the Rayenwood auditorium, Youngstown and according to reports they will battle to a tune of $8,000 gate receipts. Rocco is favored to win owing to his better punching and longer experience.

Emmett has not fought for months due to a siege of la grippe while Scarney has been battling regularly.

Dunn To Help Cumo

Jimmie Dunn and Joe Cumo will handle Rocco tonight while Jim Jennings will have charge of Scarney.

George Perotta, former local middleweight, will clash with Al Jackson of Milwaukee in the six round semi-final.

Hundreds of local fans will attend the bout and those who hope to get a good seat should travel early to Youngstown.

Dempsey Arrives In New York City, May Deny Retiring

Believe That Dempsey Is About Ready To Retire From Retirement

BY DAVIS J. WALSH
Sports Editor Internat'al News Service

NEW YORK, April 11—Jack Dempsey, the well known ex-fighter will arrive in town where the critical money flourishes about noon today and if he follows the script faithfully he will hasten to re-affirm his several denials of the canard, freely circulated by those of an unethical trend of mind, that sooner or later he means to retire from retirement. This part it it probably will be simple enough..

The difficulty will come in explaining the purport of those personal messages he has been sending from time to time to business and personal friends in the east.

The last of these asked Jimmy Johnston to meet him at the Ambassador hotel at 1:30 o'clock this afternoon and unless you assume that he wishes to talk to James about the high cost of Roman candles, you naturally would connect the conference with boxing. Anyhow, Johnston has taken the message to mean that he will be asked to manage Dempsey and all I can say is that I hope James is enough of a philosopher not to go jumping promiscuously off tall buildings later in the day and injuring a lot of people he really wouldn't wish to know socially.

Night Of Punch Satisfies Fans

Jolly Fistic Circus Actors Furnish Spectacular Drama Of Punch As Climax To Indoor Season; Conrad Gives 10 Pounds Away And Loses Award To Johnny Hanlon; Rio Receives Decision Over Sunday; McManus Takes Bout From Tucker; Elmo And Fink Fight Bloody Battle To Draw, While "Lulu" Peret Knocks Out Mickie George In First Round

By ED. FRITZ

Legalized assault and battery played a rampant tune at the Jolly Fistic circus last night when the blood and thunder element of that part of the human race, known as the 'fight populace' left the Old Armory fully appeased, having had their lust for excitement satisfied by five bouts which were the most strenuous that have been staged here.

It was a night in which knockdowns, punch and fast fighting scored a triumphant hit and during the fierce walloping the fans cheered the gladiators on as though spurring them in to further acts of wanton fierceness.

Last night's fights, and they were fights, every bout of 'em, proved the climax to a season in which many disciples of the Art of Busting Nostrils have not only had their nasal propensities broken but their ears pounded into cauliflower description.

Hanlon Wins Decision

Eddie Conrad of Cleveland, used all of his nimbleness of foot, and ringcraft, and he had plenty of it, in his six round bout with Johnny Hanlon of Toledo, who outweighed Conrad 10 pounds and this was a big handicap to Conrad.

Hanlon captured the decision after the judges failed to agree, the fight being given to Hanlon by ex-King of the middleweights, George Chip. The fight was fast and furious and on innumerable occasions Hanlon was warned for foul tactics.

Conrad demonstrated plainly that had there not been a disparity of weights he would have cut Hanlon to pieces but after carrying on for several rounds against the big boy from Toledo, nature told and in the end Hanlon was given the verdict.

Rio Takes Award

Frankie Rio, Cleveland and Frankie Sunday, Akron, climbed against each other in the semi-final of six rounds and the judges gave the bout to Rio, probably on account of his garrison finish in the last round.

In the first round there was the customary feeling out process and they danced around the ring but beginning with the second they commenced and carried out some spectacular boxing that kept the fans on edge.

They slipped punches, beat each other to the wallop and sidestepped in the fashion of Johnny Kilbane, Abe Attel, old Jim Corbett, men of whom the Old-Timers love to talg about. It was a bout in which science predominated.

McManus Beats Tucker

Sammy Tucker, a southpaw of Akron and Terry McManus of Pittsburgh, bantams, clashed in a six round bout and when the judges disagreed the writer handed the plum to McManus. Tucker hit low several times and also wrestled, things which are barred.

Tucker set McManus down in the first but he got up without a count. He unfortunately injured his left in the second and could not punch as hard thereafter. The bout was fast and filled with punches, however, until the end, with McManus piling up most points.

Elmo The Mighty and Jack Fink fought like two stallions for four rounds and to a draw. Fink's stomach was beat red and Elmo took a hundred jabs on the nose. They fought from bell to bell and would have kept on had there been no bell.

They lifted punches from the floor, brought them from the ceiling and swung them from the walls. It was as fierce a caveman fight as one would want and anybody who wanted legalized "murder" witnessed it when Elmo and Jack fought.

Stops George In First

Mickie George started out like a whirlwind against "Lulu" Peret but as the first round ended "Lulu" caught him with a right to the chin that sent him reeling through the ropes, down and out.

Half of his body was inside the ring and half outside the ring. His body was held up by the second strand. He was out as cold as a clothless sailor in a refrigerator and the writer after counting ten brought him to with a dash of water.

George Chip, the former middleweight champion of the world refereed the Clark- Fink and Conrad-Hanlon bouts and the writer was the third man in the other three bouts.

Tommy Jones, former lightweight and Henry Goldberg were the judges. The timekeeper was Tom McMahon and the the announcer was Bugs Walther. Mike Kane, deputy commissioner, was in charge of the bouts. The promoter was Bill Jolly who can set back and talk long and loud of the good bouts he has provided for fans in this city.

Rickard isn't worrying about a knock-down-and-drag-out opponent for Tunney. What he wants is an opponent who can drag 'em in.

Death-bed confessions will help the political situation. Let's have many of them—quickly.

Tony Ostrosky Named Basketball Captain

By "BUGS" WALTHER

Anthony "Tony" Ostrosky, will be the 1928-29 captain of the New Castle High School basketball team. Election of the popular young guard was held at the Senior High School this week.

Ten lettermen as follows participated in the election: Captain Reider, Cuba, Alexander, Sillman, Johnson, Kulich, Thomas, McClelland, Richards and Ostrosky.

Ostrosky was chosen captain in recognition of his valuable service to the New Castle High flood squad for the past two years. In 1926-27 Ostrosky reported for basketball and was soon placed at the roving guard job, with Sillman at the still-guard post. Coach Philip H. Bridenbaugh was so much impressed with his work that the youngster played the entire year as a regular and was one of the mainstays of the team that ascended the pinnacle of the W. P. I. A. L. and crashed through to the scholastic championship.

Picked by many of the sport writers last year as one of the best defensive and offensive guards in the W. P. I. A. L. the husky youth more than lived up to his reputation during the season just closed and has been the unanimous choice of inumerable sport writers for mythical positions this year.

Fine Type Athlete

Ostrosky is the type of athlete that not only pleases the coach, but is very popular with the student body and also the fans. A fighter every inch of the way, the youngster on the football field and basketball court has endeared himself to countless thousands of sport lovers. In regard to his football ability, the coaches of Senior High rank him with the best ends that have ever donned a red and black uniform.

Not only does Ostrosky maintain a high standard at athletics, but he is also a real student and his scholastic standing has always been of the best. Ostrosky has meant much to New Castle High in athletics for the past two years and a more capable leader could not be found anywhere. A quiet unassuming chap he has always done his bit without a grumble and he is anxiously looking forward to the 1928-29 basketball season when he will strive to lead his team through to another sectional title and further scholastic honors.

Ninety Candidates Out For Positions On High Track Team

Coach Philip H. Bridenbaugh Greeted By Healthy Sized Squad At Franklin Field

Six Veterans From Last Year Report; Outlook Unpromising; Material Green

By "BUGS" WALTHER

In spring a young man's fancy turns to thoughts of love and track—in this case it's track, if you please. When Coach Philip H. Bridenbaugh stepped out on the greensward of Ben Franklin high field on Tuesday afternoon he was greeted by 90 candidates for positions on the 1928 New Castle high track team.

Never in the history of New Castle high has so many aspirants reported for positions on the track team. Maybe this cross-country run has stirred the boys up, and they all imagine they are Dilks and Paynes, but nevertheless New Castle high's track team is not wanting for material.

Material is Green.

The only unredeeming feature of the entire procedure is the very evident fact that the material for the most part is very verdant, or green, in the true sense of the word. Out of the 90 odd candidates in training at the present time there are six veterans from last year. The veterans are Walter Smith, Willie Campbell, Art Craft, Arthur Sillman, Arthur Meek and Paul Wilkinson.

Faculty Manager Ralph H. Gardner was at wits end to find suits enough to clothe the aspirants. The New Castle high officials had but 60 track uniforms and you can't jam 90 boys into 60 suits and make any headway; that is, not unless some of them happen to be Siamese twins.

Coach Bridenbaugh faces a heavy task in selecting a suitable track team to represent New Castle high at New Wilmington in the four-county meet and also the Tech and W. P. I. A. L. meets at Pittsburgh.

The coming inter-class track and field meet may uncover some heretofore overlooked Joie Ray or Herr Peltzer, but the chances are 100 to 1 against this business.

Build for Next Year.

"It is our intention to build for next year. We realize that the material this year is not what it should be, and for that reason we are looking forward to next season," said Coach Philip Bridenbaugh.

The boys have entered training with the proper spirits and that is what counts in the long run. The muscles have tightened up somewhat during the long winter months, and it will take some time to work out the kinks.

The following candidates have reported: Willie Campbell, John B. Campbell, John Piper, John W. Camp, George Deep, Blair Johnson, Vincent Audino, Paul Wilkinson, Raymond Sargent, Arthur Craft, Vic Rice, Merle McIntosh, Harlan Mooney, William Howley, Ed McClymonds, Martin Leonhart, Don Casella, Philip Chambers, Arthur Meek, Gerald Allen, Joe Lockley, Robert Mitchelltree, William Houck, James Herbold, Eugene Cartright, Frank Richards, Samuel Fisher, Joseph Cucia, Herbert Smith, Robert Dinsmore, Earl Bauman, Arthur Barlett, Mayerd Broida, Robert Hoose, Patsy Alfera, Joe Cazza, Vaughn Fitzhugh, Walter Smith, Clifford Clemmons, Tom Harper, Angelo Moone, Donald Huffman, Charles Landolf, Arthur Sillman, George Mike, Alfon Szaumery, Walter Hemphill, Robert Shoaff, Charles Kelley, Joe Aiken, Nelson Weygant, Clair Haid, Steve Janovich, George McCracken, William Stump, Julius Freeman, Robert Rose, Andy Beres, Joe Shultz, John Dobelek, Arthur Alexander, Gordon Jenkins, George Bender, Jack Lewellan, William Long, Henry Wyman, Oren McFarland, Tony Moscal, Walter Chermyousky, Reed Walker, Ralph Shoaff, John Maher, Henry Lightner, John Hodge, Steve Knis, Edward Mackey, Jack Stone, Edgar Gilbert, Miles Mancine, William Hammond, Harry Sanders, Frank Barron, Harry Juaokousey, Harold Livesay, William Hartman, Cal Smith, Paul Zarrilli, Jack Holliday, Franklin Russler and Andy Uram.

The student manager this year is John Soyring, and he has for his assistants "Tubby" Ruha, George Jones and Melvin Caplan.

Yanks And Macks Battle Today In Initial Contest

Speaker And Cobb To Play With Athletics; Ruth And Gehrig Yankee Threats

(International News Service)

PHILADELPHIA, April 11.—The Yankees and Athletics open the baseball season here this afternoon with Lefty Groves scheduled to do the hurling for the home team and probably Herb Pennock, another famous southpaw, on the mound for the New Yorkers.

Not only is it the start of the present baseball season between the two clubs rated as the top-notchers of the American league but just as equally important it is—the opening of the 28th season for Connie Mack at the helm of the Athletics.

The inaugural bids fair to pack Shibe park to the limit for all reserved seats were sold ten days ago and scalpers were reported getting $10 and $15 a throw for the prized pasteboards as the day dawned overcast and cold with a threat of rain due by game time at 3 o'clock this afternoon.

Mayor Harry A. Mackey will throw out the first ball. Ty Cobb and Tris Speaker, veterans both, will patrol the outer garden for the A's supplementing the Yankees' famous home-run kings, Babe Ruth and Lou Gehrig.

Sport Ritticisms

Many colleges are reported frowning upon the old idea of a training table, which was a sort of free lunch for well-filled athletes.

* * *

The football boys trooped in at the heels of the coach and, at a given signal, dived into the chow and threw it for a 10-yard loss. When they left the stable there was nothing on it but the silver and this bore tooth marks.

Plain and fancy gnawing occurred three times a day and the good old alma mater footed the bill. The plunging fullbacks earned their keeps but the bench warmers were just so much overhead.

"Ring Out Wild Bells" By Feg Murray

It will be most interesting to see how Lester Bell gets along at third base for the Boston Braves this season. Not only because Bell and Hornsby are good friends, and because Bell played his best baseball for "the Rajah" in 1926, when the Cards won the pennant, then slumped badly the following year with his pal and manager gone to New York, but because reports have it that Lester Bell is "spike-shy" and "leery" of hard-hit balls, and that Manager McKechnie was glad to let him go.

One may imagine that Bell learned of his transfer to the Braves with mixed emotions. To suddenly find yourself removed from a team that is unanimously picked to finish one-two in the National League this year, and traded to a team that hasn't ended a season in the first division, since 1921, is not so good, no matter how you look at it. But to play in the same infield and under the influence of Rogers Hornsby again is all very fine, provided you like Hornsby, and Bell does.

Lester Bell has been one of those every-other-year men, like Harry Heilmann. He played the 1924 season with Milwaukee and made a fine batting mark of .465. Next year, with the Cards, he fell to .285. In 1926 he ran his mark up to .325, hit seventeen home runs and was a big factor in St. Louis winning its first pennant. In 1927 he slumped to .259. Now he seems to be due for another good year, and if he plays in his 1926 form, the Braves are going to have an infield that will stack up with any in the National League.

Feg Murray Says—

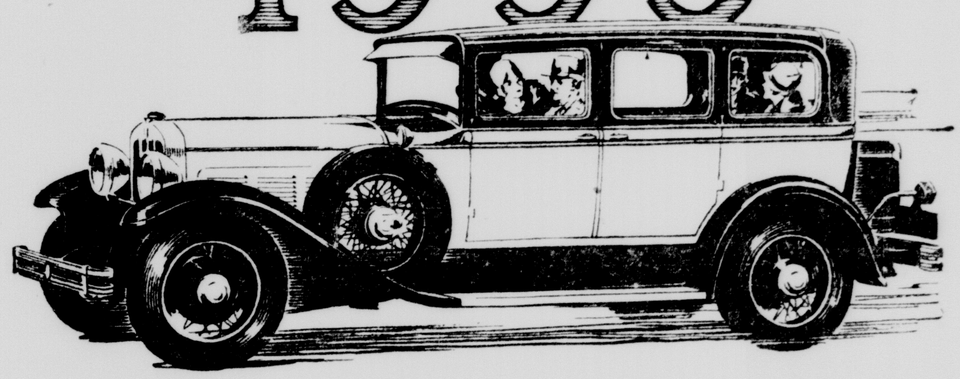

Consider the sad case of Bert Shotton. He had a nightmare, dreamed that he was managing the Phillies, and then woke up and found out that he was!

TODAY'S ROYAL EIGHT BY CHANDLER

A magnificent motor car

$1995 f. o. b. factory

Best performing car in America regardless of price!

WE repeat . . . Today's Royal Eight by Chandler is beyond a doubt the finest performing car in America—*regardless of price!*

And you won't find anything within hundreds of the price that's a close match for this magnificent car in smartness, elegance, sumptuous comfort, intrinsic quality and value.

Facts, not Claims

Look and see. *Drive* and see. Get down to actual cases. Make your comparisons.

You'll find that Chandler doesn't just claim superior performance—it *demonstrates* it. On top of breaking all records for breaking records, Chandler now improves upon Chandler in a new line of Royal Eights and a complete new line of Sixes—more high-powered than ever.

And these cars don't just claim to outstep, out-climb and out-run anything else within hundreds of the price—they are gayly and daily going out and *doing* it!

Today's Chandler proves, too, its claim to be the easiest and safest of all American cars to control. *Westinghouse Vacuum Brakes.* Quicker, smoother stops *three times* easier than is possible with hydraulic or mechanical brakes that depend altogether on foot pressure!

And talk about modern features—any time you want to lubricate the Chandler chassis you simply press a plunger, and Chandler's "One Shot" centralized lubricating system does the whole job instantly. No time out. No bother. No expense.

Chandler-Built Throughout

Thirty fashionable models—built from the ground up in a great $10,000,000 plant by a big powerful company. Value, value, value, through and through. The smartest, richest, finest cars in all Chandler history.

The Sixes range from $995 to $1925, the Royal Eights from $1995 to $2195, all prices f. o. b. factory. *Compare!*

Liberty Five Ends Fine Floor Season

Liberty Five Runners-Up To Rick-Overlands For City League Title

William "Bill" Woods Is Leading Scorer On Liberty Five Combination

The Liberty Five basketball team recently completed their 1927-28 floor schedule by downing the fast Wampum Indies at the local Y. M. C. A. floor 40 to 27, in a return engagement. The Wampum boys handed the local passers a bad beating at the Wampum Opera House floor in the first contest.

The Liberty tossers finished the season with a total of 25 games won and 15 games lost, winning 12 out of 18 league games and 13 out of 22 non-league contests.

After finishing in a tie for third place in the first half of the City League the Liberty quintet came back to cop the second half championship, losing only one game during their march to the honors.

The Liberty Five passers were defeated by the fast Rick-Overlands, winners of the first half of league play, in the play-off for the city title.

Much credit for the team's showing in the second round of league play must be given Frank Nocera, former Rick-Overland star, who signed to play with the Liberty passers at the beginning of the second half of the league schedule, it was the fine playing of this lad that enabled the Liberty Five to cop the second half of the league race.

The Liberty Five has been organized for the past seven years and have always made a creditable showing among teams in their class, but this season the Liberty quintet was forced to schedule teams of higher rank and the boys made a fine showing among their more experienced opponents which they met on most of their trips.

Manager Tony Tino deserves a lot of credit for his good work in scheduling games and taking care of all the team's business in the past season. Coaches Bub Jones and Frank Coen also deserve much praise for their work during the season, Coen taking up the coaching duties at the beginning of the second half of the city league.

Woods High Scorer

Captain Bill Woods lead the Liberty quintet in scoring with 223 points to his credit, this flashy little forward was a menace to opposing guards all season and was the main cog in the Liberty's offense. Hannon, running mate to Woods was second with 129 points while Parker with 109 points and Kroen with 102 points were third and fourth respectively.

The Liberty Five passers scored a total of 1054 point to 972 points for their opponents during the past season.

The following boys composed the Liberty Five and deserve much credit for the team's fine showing: Woods, Hannon, Parker, Reiber, Clark, Nocera, Kroen, Kearns, McKay, and Manager Tony Tino.

Expect Kelly Will Make Good Coach

Westminster Athletic Star To Coach Sport Teams At Mercer High

HOWARD KELLY

(Special To The News)

NEW WILMINGTON, Pa., April 11.—Howard L. Kelly of New Castle, member of the senior class who has been elected a teacher in the Mercer high school and head coach of football and basketball for next year, has made an enviable record for himself at Westminster College during the last four years.

"Red", as he is known on the campus, has won letters in varsity football and in basketball, and has been a member of the track squad. He has reported again for track this year.

In addition to these athletic honors, Kelly has maintained a high scholastic average, having majored in chemistry. He is chairman of the upper class committee, a member of the intra-mural board, a member of the inter-fraternity council, has taken part in class plays, and is an officer in Kappa Phi Lambda fraternity.

During the present intra-mural basketball league race, Kelly won the acclaim of the whole campus as the best court official among the student group who handled the fraternity contests. Add to this the fact that he was voted the senior man most likely to succeed and it will be seen that Mercer is getting a man in whom they will be pleased.

HOUSEHOLD HINTS

BY MRS. MARY MORTON

MENU HINT.

Every meal is the better for a something crisp and fresh to eat with cooked dishes. The early onions and radishes, lettuce and cress are all good and should be served to the adult members of the family.

Fresh Cod with Tartar Sauce
Baked Potatoes Escalloped Tomatoes
Radishes Green Onions
Rhubarb Pie. Coffee.

Todays Recipes.

Fresh Cod—Dip cod in flour, then squeeze lemon juice on each piece. Then roll in egg and bread crumbs and fry in shallow fat being sure to cook thoroughly.

Tartar Sauce—Use four tablespoons mayonnaise and one teaspoon each of chopped stuffed olives, minced onions and capers.

Escalloped Tomatoes — Butter a baking dish. Heat a can of tomatoes and pour half into the baking dish, then a layer of buttered bread crumbs and another layer of crumbs. Dot with butter and bake until the top is nicely browned.

Suggestions.
Cover "Best" Dishes.

When one has a "best set" of dishes to be used often but not daily, preliminary washing may be omitted if they are covered carefully. Pack the dishes as compactly as possible on two or three shelves. Then measure the length width and height of the shelf space used. Make covers as for a deep box of the required dimensions, from fancy oilcloth to match the kitchen color scheme. Fit covers closely over dishes and they will be free from dust when needed.

Try Steel Wool.

One housewife suggests using steel wool with soap that comes with it—such as is used to clean aluminum—to clean badly stained windows.

The butchers, at least, are more efficient—there never was a time when they could cut so many steaks from an animal.

N. Y. STOCKS

NEW YORK, April 11.—Scattred selling of the industrial stocks at the beginning of trading today, in recognition of the firming up of call and time money rates, resulted in further losses of 1 to 4 points in the speculative leaders.

There was no sign of relaxation in the money market, and the call loan rate was posted at 6 per cent. Time money was quoted 4-7/8 to 5 per cent and the bankers acceptance market was firm.

Offering of the so-called pool specialties were heavy in the first hour. American Linseed dropped abruptly to 97 for a 5 point loss, radio sold down 3 points at 173-½ and General Motors, after a show of resistance at the start, declined to the level of yesterday's low. Losses of a point or less were sustained by United States Steel, American Can, Hupp, Studebaker and other market favorites. Stocks of the Copper companies which were churned around at such a rapid rate earlier in the week, also retreated under selling pressure.

The Diary of a New Yorker

By CLARK KINNAIRD

Exclusive Central Press Dispatch to New Castle News.

NEW YORK, April 11—Among travelers there is a tradition that if you sit in front of the Cafe de la Paix, in Paris, long enough you will see every one in the world you know. But Times Square, New York, is more truly the crossroads of the world.

P. G. Berdeshevsky, engineer and cosmopolite, who was born in Russia, educated in France and the United States, has supervised engineering work in Egypt, South America and Europe and traveled all over, tells me that he encounters more of his acquaintances from around the world in Times Square than in any other international gathering place. The Strand, Unter den Linden, Place I Opera, Shepheard's's in Cairo, the Bund in Hong Kong, the Malecon in Havana, are comparatively unimportant crossroads.

Pavements around the Times tower are a favorite refuge of lonely visitors from the hinterland and abroad. They hope to meet some one from home. The news stand at the north end of the building deals in newspapers from small and large places all over the United States. A shop in the basement sells newspapers and magazines from all foreign countries.

The triangle also is a popular "meet-you-there" place for New Yorkers. When a Manhattan husband phones his wife and tells her to join him "downtown" and go to a show, she knows she is supposed to meet him at the Times Square Liggett's. The lobby always is crowded with waiting persons, and a floorman is necessary to prevent blocking of passageways.

* * *

Because Times Square is the crossroads of the world, there are detectives watchfully waiting there day and night. It is a haystack in which it is easy to find needles. A crook who does a "job" in another city and heads east is likely to call at the out-of-town news stand on the Square to see what papers back there are saying about it. An absconding banker becomes anxious for news of his deserted family, and goes to the stand for a paper. Or a runaway daughter is curious to know if her folks think she has been kidnaped or murdered. By patrolling the squad detectives are able to pick up scores of persons sought by police of other cities.

* * *

Marion Gosnell, the writer, is here from Andover, O., telling a story about Clarence Darrow's early days as a lawyer in Andover. In one of his first cases he, a raw youth, was pitted against one of the most dignified members of the bar, and took delight in annoying his opponent during the progress of the arguments. Finally the older man, losing his temper, bawled out to the jury: "Gentlemen, there is a donkey in this room."

Darrow responded: "Yes, gentlemen, I just heard his voice."

* * *

The length of pre-opening lines at the deluxe Broadway picture houses of a week-day morning is an indicator of the extent of unemployment in New York. They are long now. Most of the persons in line are men. The spend the early morning hours hunting for work; then, not wanting to go home to the family to report failure, and desirous of forgetting their troubles, they crowd into the luxurious photoplay cathedrals, sitting through several shows. Managers haven't found a way to get them out after one performance.

How To Achieve Beauty

By MME. HELENE RUBINSTEIN
Noted Beauty Expert

Exercise for strengthening and proportionalizing muscles, especially for the hips: Lie flat on your stomach, place your weight on the palms of your hands, bringing the body up, the toes maintaining part of your weight. Raise the body up and down several times.

Reducing Rhythmics for the Hips

No exercise regime would be complete without special correctives for heavy hips. It is, unfortunately, a very prevalent physical disfigurement—but—be of good cheer!—it is, as I have said before, a condition which reacts quickly to exercise.

The simple, easy, universal exercise for hip reducing is rolling. Eight times at least—twelve is better—and sixteen is fine. After the rolling we get down to actual Rhythmics.

First: Stand erect, hands on hips. Throw up the legs bent at the knee, first one and then the other. Then throw up the legs, knees perfectly straight spine erect for eight more times, first the right then the left leg.

Second: Lie flat on your stomach, place the weight on the palms of your hands, bringing the body up, your toes maintaining part of the weight. Raise the body up and down several times. Begin doing the exercise quickly, then gradually lengthen the time of the movements. This builds up strengthened muscles.

Lie flat on your back. Bend the right knee slowly, cross the leg over to the left side bringing the foot down on the eighth count with a definite stamp. As you bring your foot over, the weight of your body should shift to the left hip. Resume the original position and repeat the exercise, this time using the right foot. Sit, up touch your toes with the finger tips, then slowly extend the arms outward. Raise your right foot and cross over the left as far as it will go. Finish with a stamp, at the same time bring the arms together and bend forward until they touch the ankle in a jack knife doubling position. Be sure to go very slowly. Then come back to the original position and repeat the whole movement to the left.

Now, while still in the jackknife position, grasp the ankle of your right foot with both hands, raising the leg as high as you possibly can. Go through the ankle rotary movement, describing a complete circle with your toes, first to the right, then to the left.

Still grasping the right ankle, put your weight on the right foot, stepping forward, then sitting back. Do just this part of the whole exercise eight times. The corrective rhythmic I have just completed, is not nearly so complicated as it sounds. Each separate movement is a splendid exercise in itself, but the entire one, really a system of units, is remarkably valuable and beneficial in fulfilling your purpose. Take it bit by bit until you have mastered it completely. It is one of Mordkin's best, and has been carefully perfected for its very special definite purpose of reducing the hips, upper legs, and diaphragm. Go over it carefully first, until you perfect your technique, and then continue it to music.

When a fellow sings lustily, "How Dry I Am," you can pretty nearly every time suspect that he isn't.—Savannah Morning News.

Advertising Man Kiwanis Speaker

Marvin And Leonard Are Elected Delegates To Seattle Convention

Something a little different from the usual address was presented to the Kiwanis club today at noon in the Elks home. Karl Fries, advertising manager for the Fisher stores, was the speaker and his subject "Modern Art in Advertising." In it he traced the influence of architecture, engineering, aviation and entrance of women into the world's work, upon the design of clothes and wearing apparel.

The address of Mr. Fries was a technical one, dealing with his profession and was skillfully handled. The soloist of the day was Billy Williams, who pleased the club with two selections.

President H. Lee Marvin and J. C. Leonard were elected delegates to the international Kiwanis convention, which will be held in Seattle, Wash., in June.

Banished Klan Members Press Their Defense

Seek To Prove Terrorism Perpetrated By Klan For Publicity Purposes

ASK ACCOUNTING OF HEALTHY SUM

(International News Service)

PITTSBURGH, April 11.—Murder, riots, church bombing—every conceivable form of terrorism was perpetrated by the Ku Klux Klan "to strengthen feeling within the organization," counsel for five ousted members of the order in Pennsylvania charged today as the banished klansmen pressed their defense in the $500,000 klan suit against them in federal court here.

Seeking to prove through a long list of witnesses that the alleged depredations were part of a deliberate policy adopted by Imperial wizard Hiram Evans and his associates for publicity purposes, Van Barrickman, counsel and member of the ousted quintet will introduce more testimony of mob violence, he said.

Clarence W. Ludlow, of Dallas, Tex., created a stir in court by his statement that he saw seven or eight men burned to death by klansmen in Texas, and that Imperial Wizard Evans personally superintended the flogging of a negro. While klan counsel did not attempt to break down this testimony, it was set forth that such attacks were on the initiative of individual klansmen and were not part of a klan policy.

The banished klansmen seek an accounting of more than $20,000,000 which they say was collected by the secret order in this state, while the klan in turn seeks damages for the ousted members' alleged interference in the organization's activities.

STILL ON TRIAL.

The case of the Beloit Iron Works Company against John P. Lockhart, receiver of the New Castle Paper Products, is still on trial before Judge Hildebrand.

The man who pays a high price for this moonshine liquor they peddle may soon find he is in other ways than financially.

May Establish Narcotic Farms

Bill Will Be Presented House Committee Urging Narcotic Farms For Federal Prisoners

(International News Service)

WASHINGTON, April 11.—A nation-wide plea for the establishment of narcotic farms for Federal prisoners will be presented to the House Judiciary committee on April 28, Rep. Porter (R) of Pennsylvania, author of the measure, said today.

The pleas are contained in nearly 1,000 letters which have been received by Porter. They come from Federal judges, prison officials, civic workers and former "dope" addicts.

"The sentiment shown for action by the Federal government to curb the narcotic evil is remarkable," said Porter.

"I have never experienced such demands in my legislative service."

Two "dope" farms would be established under the bill, and all Federal prisoners who are narcotic addicts would be especially treated at the farms.

Round Off Corners In Business Center

Bricklayers Commence Laying Brick In Widened Portion Of Street

Workmen today are rounding off the northwest corner of North Mercer, at East Washington street, and will remove a tall iron pole. Corners on the southeast and southwest corners have been rounded and a pole which stood near the Leslie hotel has been removed. Bricklayers are paving the widened portion of South Mercer street.

Roaming Round With Richards

Some News, Some Views, But Mostly Just Observations Of Interesting Things Around New Castle

Yesterday's roaming was a trifle different than the ordinary day's peregrinations. Did it in the air as the guest of Ralph Kegarise and Lieutenant Herbert C. Sherman, and after plumbing the skies with this Sherman lad I'm for this aviation thing. Yesterday was not the first time I'd been in the air (literally), nor the second, but it was the best trip of them all.

It's a pleasure to know people who know their job and Sherman knows his. He may be a little foggy on the Nebular Hypothesis, and his knowledge of Mosaic well digging be rather sketchy. Neither did he offer any opinion as to the relative merits of Coolidge or Hoover, but customers as an aviator he knows his controls.

Taking off and landing are two features that mark an aviator. The sloppy flyer gets off in a haphazard way and lands with a prayer. Sherman does neither. He takes off as gracefully as a bird and I do believe he could land a ship with a crate of setting eggs in it, and never harm one of them.

Down on the ground the weather was balmy but half a mile in the air the motor doing 110 miles per hour it was cold, goshawful could. And that wind was strong enough to blow the rivets out of a skyscraper. It was no place for a person with false teeth or loose tonsils for one peek over the side and they would have been blown out.

Its an unreal sort of thing, this flying. The distance from the ground is so great that one loses all perspective and that funny feeling in the pit of the stomach is not present. The golf course looked like a huge pool table, green and velvety, and that water hazard on number thirteen looked like a small thing after all.

At 2,500 feet the streets look deserted. A few dark specks moving about, like ants in an ant hill, and on both sides of them, piles of brick and steel that looked like a handful for a good sized man.

For the past two weeks the slogan of the air committee of the Chamber of Commerce has been "lets be air minded." Reading nineteen yards of publicity on the subject might help a little, but one ride clinches it. And this summer anybody who wants to fly can do so with little trouble.

Some day I'd like to meet a flyer who talked as much as the ordinary individual. They have little to say. Sherman is a reticent sort of fellow who knows one thing and knows it well. Lieutenant Scholtz, out at the Crowl Field is another reticent individual. He talks little, and yet he has been a flier for more than ten years. During the war he was a British War Ace and if you think the Royal Flying Corps didn't have plenty of experience, then you don't know the history of this corps.

This colyum today is written with no idea of advertising any commercial flying unit. It is written with this idea. Flying is coming by leaps and bounds. New Castle should be in the band wagon, and the time is here when we can utilize aircraft.

The only way to convince yourself that flying is reasonably safe is to make a flight with some experienced aviator. The worst part of the first flight is getting off the ground. After that its the smoothest riding you ever experienced.

And its quite an experience to zoom along at 110 miles an hour without having somebody yell, "hey you clown where do you think you are."

Farrell Couple Seek Large Sum For Injuries In Woman's Fall Through Sidewalk

Special To The News

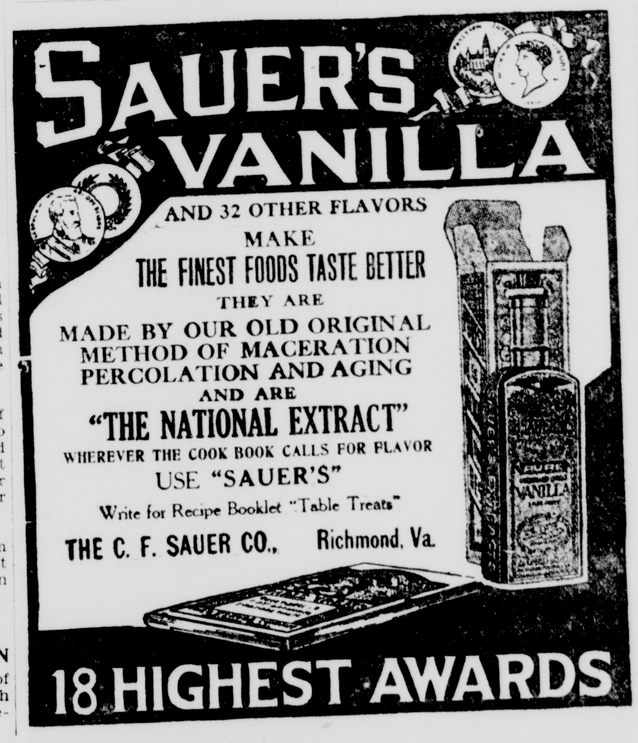

MERCER, Pa., April 11.—Suit for $75,000 damages has been entered in the Mercer county courts by Mr. and Mrs. Sylvester Maltsby as the result of injuries sustained by Mrs. Maltsby last December when she fell through a coal chute in the sidewalk in front of the Strand theatre in Farrell.

The suit is entered against the borough of Farrell, John T. Burke of Pittsburgh, owner of the building, J. B. Roux of Farrell, owner of the lease and four members of the Apollo Amusement company operating the theatre.

It is stated that Mrs. Maltsby was in a delicate condition at the time that she met with the accident.

He locked his car for safety's sake and not to make it difficult for the traffic cop to leave a red card where it wouldn't blow away.
